

REEL KING MEGAWAYS™

This King of the slot world will not be dethroned!

Reel King Megaways™, our latest and most exciting game release yet, brings the iconic Reel King brand together with the No. 1 Megaways™ game mechanic! This hugely anticipated slot is an unforgettable experience with features such as cascading reels with advancing 'Dings', a free spins gamble, and the ever-popular Reel King mini-reel bonus, which leads to free spins with an unlimited multiplier!

Players have been asking for a sequel to the Reel King series for quite some time and now they have it: Reel King Megaways will exceed their expectations and reinforce Reel King as one of the most popular and successful brands in the history of slots!

With three levels of feature entry, and with the addition of 'Dings' in free spins and the Reel King feature, Reel King Megaways takes the proven elements of Reel King to the next level.

The Reel King Game Series

Our highly successful series evokes instant player recognition!

Other player-favorites include:

Reel King (online and retail)

Reel King Potty (retail)

MEGAWAYS™

UP TO 117,649 Megaways™ to Win on Every Spin!

- The game consists of the most popular Megaways™ reel layout: six main reels and an additional 'top reel' consisting of four symbols, contributing to high frequency winning combinations.
- Wins are awarded from left to right adjacent symbols regardless of size.
- At the end of each spin, the number of ways for the spin is displayed above the reel set.

Cascading Reels

- When there is one or more winning combination, winning symbols are removed, and new symbols take their place.
- Symbols drop down onto the main reels and from the right on the top reel.
- The cascade continues until no further wins are created.

FEATURES

Lit Reels 'DINGS'

- During the base game up to 6 reels may light yellow with a 'DING' sound upon landing.
- 'DINGS' occur from left to right consecutively, starting from the leftmost reel.
- Each cascade advances the 'DING' position.
- Six 'DINGS' award the Reel King bonus with further cascades advancing the player to the enhanced Super King or Mega King bonus

Reel King Bonus Entry

- The 3 levels of Reel King Bonus (Normal, Super and Mega) have an increasingly improved Free Spins trail, and initial number of Reel Kings.
- A maximum of 6 (SIX!) Reel Kings can appear in view over the reels, spin and pay prizes.
- A unique game enhancement is when a Reel King lands all three reels with 'DINGS', the player is moved along the trail ever closer to the free spins prize.
- The improved Reel Kings will only disappear with no win AND less than 3 'DINGS'
- The feature ends in the expected way, when there are no Kings left on the reels.
- If a Free Spins trail position has been reached, the Reel King Free Spins will be awarded.

FEATURES

Reel King Free Spins

- A maximum of 25 Free Spins can be won on the Mega trail.
- Winnings are multiplied by the current multiplier. Each cascade increments the multiplier by 1 AND advances red 'DINGS'
- Six red 'DINGS' in view will activate the double barrel Reel King. The top reel adds more free spins, the bottom reel can increase the multiplier. No limit to the multiplier! Red 'DINGS' are reset allowing the player to win it again!

Free Spins Gamble – Gamble any cash and Free Spins from the Reel King feature for more Free Spins. Allow the player to choose their volatility and turn cash into free spins. The player is in control.

- The TAKE button displays the amount being risked and the Spin shows the award for winning the gamble.
- The gamble wins if the arrow lands in the green area and loses if it lands in the red area. The winning Free Spins prize can be risked again until Maxed out.
