Intro

Alice Cooper and the Tome of Madness is a cascading video slot game played on a 5x5 grid. Symbols drop down in the grid to form winning combinations. Wins are achieved by getting 4 or more symbols in a connected cluster where they touch each other horizontally and/or vertically. Winning symbols are removed, and new symbols drop in to fill up the grid. The game continues to cascade until no new winning combinations can be created.

On a non-winning spin, there's a chance for 1 of 4 Reality Effects to be triggered: Insane Asylum - Transform all High Pays into the same High Pay; The Dungeon - Transforms all Low Pays into different High Pays; Chamber of Horrors - Destroys symbols, leaving behind Wilds; Temptation Room - Adds a Wild and transforms symbols into the same symbol.

Collect 3 Keys on the grid in a single spin to unlock the Alice Cooper Mega Wild. When a Key is collected it leaves behind a Wild. When triggered and there are no more wins, the Mega Wild is added to either reels 2, 3 or 4. Once landed, it chooses to walk either left or right and continues between cascades until it walks off the grid.

Winning symbols charge the Hat of Madness. 5 symbol thresholds trigger features when hit: 10 symbols to get 1 – 2 Wilds added on the subsequent cascade and spread across the grid; 25 symbols to get 3 – 6 Wilds added on the subsequent cascade and spread across the grid; 50 symbols to get 3 Reality Spins; 75 symbols to get 3 Reality Spins with a x2 Multiplier; 85 symbols to get 3 Reality Spins with a x5 Multiplier. Only the highest tier of Reality Spins is awarded.

If Reality Spins are triggered, the game transitions to the selection menu when there are no more wins. Choose 1 of 4 Reality Spins, including Insane Asylum; The Dungeon; Chamber of Horrors; Temptation Room. Each choice has its own version of Alice Cooper and Reality Effect tied to the Reality. The respective Reality Effect will be triggered at the end of each of the 3 Reality Spins.

Before the game transitions to Reality Spins, the Alice Cooper Mega Wild is reset. During Reality Spins, the Alice Cooper Mega Wild can be triggered on each spin; every time it moves, there is a chance for 3 – 6 additional Wilds to be added to the grid.
