Game features

Locking Respins

Bonus symbols which land in view on the main reels can randomly lock in place and the reel respin is activated. Should further bonus symbols appear after the respin, they are also locked in place and the reels respin once again. This continues until no bonus symbols land in view.

Big Cat Free Spins

6 or more bonus symbols in view triggers the free spins bonus, awarding up to 25 free spins. During free spins the Wild Leopard and Savage Lion modifiers are in play. Free spins can be re-triggered at any time by landing 6 or more additional bonus symbols. The Wild Leopard modifier turns all Leopard symbols wild and a multiplier of up to x3 is awarded to each Leopard symbol. Landing 5 or less bonus symbols during free spins triggers the Savage Lion modifier, which turns all bonus symbols wild. Free spins are played at the same bet as the base game and continue until no more free spins are available.

Rhino Stampede!

The fearsome sight of the Rhino Stampede shakes the reels on any spin, randomly transforming reel positions into the mystical Mystery Symbol, giving the potential for even more winning lines.

Wild Leopard Spotted!

The Leopard prowls the reels with awesome menace. Any Leopard symbols landing in view will turn wild, enhancing the chances of winning big prizes!

Buffalo Charge!

The charge can be triggered at any moment when a Buffalo symbol lands in view. The mighty Buffalo roam across the reels and spread to adjacent positions, building the anticipation of greater rewards.

Untamed Elephant!

The Elephant is the king of the savanna. Its intimidating presence expands up to a colossal 3x3 symbol when landing in view, proving it is the undisputed monarch of the reels.

How to Calculate Payline Wins

To calculate the total Ways win, add all the symbol wins together.

To calculate a single symbol win, count the number of consecutive reels that contain the symbol, starting from the leftmost reel.

If the number of consecutive reels containing the symbol is 3 or greater counting from the leftmost reel, find the corresponding win amount in the dynamic pay table.

If any of the reels contain more than 1 instance of the symbols, the win will be multiplied. Multiply the number of symbols on each of the reels to get the final multiplier. For example: if the first reel contains 2 symbols, the second reel has 3 symbols and the third reel has 2 symbols, the total multiplier is counted as follows: $2*3*2=12$ (total multiplier).

The above doesn't include Free Spin symbols which do not need to be on consecutive reels to award a prize.

After the Free Spins round is completed, all wins are added to any win from the game that activated the Free Spins.

There can be a discrepancy between sum of the individual wins in collection Free Spins from what is displayed in the total win end screen. The total win end screen displays the final rounded win.

The Wild symbol substitutes for any symbol except the bonus symbol.
