GAME FEATURES 1/3

Multiplier Wilds

MULTIPLIER WILD symbols substitute for all symbols except BONUS symbols and JACKPOT symbols. When a MULTIPLIER WILD symbol occurs in a winning combination, the pay for the winning combination is multiplied by the value on the MULTIPLIER WILD.

Free Spins Bonus

When 3 BONUS symbols appear, the game initiates the FREE SPINS BONUS. The number of initial free spins depends on the selected FEATURE BET value. During the FREE SPINS BONUS, each BONUS ACCUMULATOR symbol increments a counter. For every 3 BONUS ACCUMULATOR symbols that are collected during a FREE SPINS BONUS, 3 additional free spins are awarded.

GAME FEATURES 2/3

HyperBet

The base game may be played at 4 different feature bet levels:

- Bet Level 1: MULTIPLIER WILD value is x1, and each FREE SPINS BONUS begins with 5 initial spins
- Bet Level 2: MULTIPLIER WILD value is x3, and each FREE SPINS BONUS begins with 8 initial spins
- Bet Level 3: MULTIPLIER WILD value is x5, and each FREE SPINS BONUS begins with 10 initial spins
- Bet Level 4: MULTIPLIER WILD value is x10, and each FREE SPINS BONUS begins with 12 initial spins

When a player selects a new Bet Level, the bet for that level is shown immediately as the bet for the game.

HyperBonus

If a player selects to play a HYPERBONUS BET, a FREE SPINS BONUS is awarded immediately with a MULTIPLIER WILD value and number of initial spins according to the selected bet. HYPERBONUS Selector shows a variety of options, and for each option the bet amount for the option, the number of initial spins, and the value of the MULTIPLIER WILD are shown. After a selection is confirmed, the FREE SPINS BONUS is played with the selected MULTIPLIER WILD value and number of initial spins, and with the same bet multiplier as is active on the game interface at the time the selection is made.

GAME FEATURES 3/3

Bonus Jackpots

The game has 4 Bonus Jackpot levels: Bronze, Silver, Gold, and Platinum. When a player wins a Bonus Jackpot, he or she is awarded the value displayed on the interface for the level of bonus jackpot won at the time that it is won. For every bet placed, each Bonus Jackpot value increases in proportion to the total bet placed. The value of each Bonus Jackpot is saved between different sessions for a single player and is saved distinctly for each player.

If any combination of 14 or more JACKPOT symbols land on one spin player wins the Platinum Level Bonus Jackpot;

If any combination of 12 or more JACKPOT symbols land on one spin player wins the Gold Level Bonus Jackpot;

If any combination of 9 or more JACKPOT symbols land on one spin player wins the Silver Level Bonus Jackpot;

If any combination of 7 or more JACKPOT symbols land on one spin player wins the Bronze Level Bonus Jackpot.

JACKPOT

14 +	>	Platinum jackpot
12 +	>	Gold jackpot
9 +	>	Silver jackpot
7 +	>	Bronze jackpot

Only highest winner is paid

Paytable reflects current bet configuration. Payline wins pay if in succession from left to right from the leftmost column on a valid payline. Malfunction voids all pays.

GAMBLE CONTROLLER FUNCTIONALITIES 1/3

HOME SYMBOL

In the Mobile Version, HOME symbol redirects back to the mobile game lobby.

SETTING ICON

On the game display access CLIENT SETTINGS by tapping the SETTINGS ICON.

SOUND

In SETTINGS, SOUND selection allows you to choose if the game should play sounds and music.

MUSIC

In SETTINGS, MUSIC selection allows you to choose if the game will play background music.

REPLAY

In SETTINGS, REPLAY will take you to game play history.

PAYTABLE

The "i" Symbol opens PAYTABLE.

GAME RULES

In SETTINGS, paragraph symbol accesses GAME RULES.

GAMBLE CONTROLLER FUNCTIONALITIES 2/3

	BET	The Total bet is shown in the BET display.
	BET ON DESKTOP	On desktop, change the bet by clicking on the display and choosing the total bet of your choice, or using the BET UP or BET DOWN indicators to increase or decrease your bet, respectively.
	BET ON MOBILE	On mobile, change the bet by touching the BET icon on the display and choosing the total bet of your choice.
	SPIN	The game is started by pressing the SPIN symbol button. You can Quick Stop the game by double clicking (for desktop displays) or touching (for touch-enabled displays) anywhere on the play screen.
	WIN	Any total win in a game round will be displayed in the WIN field. Symbol pays are displayed in the paytable, and reflects the current bet configuration. Bet line wins pay in succession from leftmost to right. Only the highest win per bet line is paid. The separate ways pays wins will be displayed on the ways pays wins during the win presentation.

GAMBLE CONTROLLER FUNCTIONALITIES 3/3

PAYTABLE

All winning combinations in the game can be viewed in the **PAYTABLE** which can be reached through the "i" button in the keypad.

AUTOPLAY

Using Autoplay will let you play a number of game rounds automatically. Press **AUTOPLAY** and choose a number of game rounds to initiate Autoplay. The remaining number of spins is displayed in the keypad. Autoplay is stopped by pressing the **STOP** button.

Additional Information

RANDOM NUMBER GENERATOR (RNG)

Random Number Generator in use is standard Java SecureRandom, which produces cryptographically pseudo random number generator (CSPRNG). The Random Number Generator in use has been tested and approved towards jurisdiction specific requirements by Gaming Laboratories International, which is accredited group of companies with globally present testing laboratories.

Malfunction in the game voids all pays.
