

# SAVING THE GOLDEN BUFFALOS

Toro has travelled to the west to save the remaining population of the ultra-rare Golden Buffalos. Chasing his tail is the Matador, who's determined to find them too, but only to collect their golden plaids.

Buffalo Toro is a 6 reels, 4 rows stampeding slot. It comes with walking wilds, multiplying wilds, a bonus and a super bonus game, and a max potential of 50 000 x bet!

**X-iter™**

X-iter™ allows players to jump straight into the action with 5 different game modes ranging from a 10x bet with a guaranteed Matador Respin feature, to a 500x bet Super Bonus with Rampage Reels feature.

## TORO GOES WILD

During the Toro Goes Wild feature, Toro leaves wild symbols behind as he knocks off and defeats Matadors.

## MULTIPLIER WILD

## WALKING WILD

3 or more bonus symbols anywhere in view trigger the bonus game with free spins. Collect gold buffalo symbols to upgrade high-value symbols to buffalos.

1 Super bonus symbol and 2 or more bonus symbols trigger the super bonus game. Collect gold buffalo symbols to upgrade high-value symbols and activate the Rampage Reels feature with stacked buffalo symbols.

## Recommended size and ratio for desktop browsers

For the optimal gaming experience, ELK Studios recommend launching the game in 1600x900 resolution. If scaling is required, use 16:9 ratio.

## Technology

ELK games uses state of the art web technologies including support for canvas and WebGL. The client detects the capabilities of the device regardless if the player is running on a desktop, tablet or mobile.

The game client will then optimize the gaming experience based on those parameters.

# ELK Studios

## We build great casino games

Since founded in 2013, ELK Studios has pushed boundaries in the online casino industry. From groundbreaking mathematics to astonishing artwork, ELK takes pride in developing entertaining mobile first content that maximizes the experience for players around the world.

Our games are developed and compiled by our inhouse studio in Sweden, and we use well known test centers such as Trisigma and Gaming Laboratories International to certify them. Once released, all games are operated by partners and operators who hold license in each market.
