

CALAVERA CRUSH

Welcome to the fiesta of the fun and the fallen. In this send off to all souls, follow the gem-cruled calavera into a celebration of spins and big wins! As loved ones pass onto the other side to leave behind the living, so do the symbols with all winning symbols being removed and new ones dropping in allowing for even more wins with Avalanche Respins! And such is the serendipity of these spooky skulls that Avalanche Respins will continue until no new winning combos appear leading to potentially endless respins! And with every win, the multiplier increases by up to 3x! But the dead are not ready to quit the party yet.. this festival calls for Free Spins where the number of Scatters dictates the spins award with up to 16 Free Spins up for grabs! There's no love lost for these funny bones.

Game features

Gamble feature

The player may Gamble for a higher amount of Free Spins or start the Free Spins session with the current amount. It is possible to win up to 18 Free Spins with the Gamble feature.

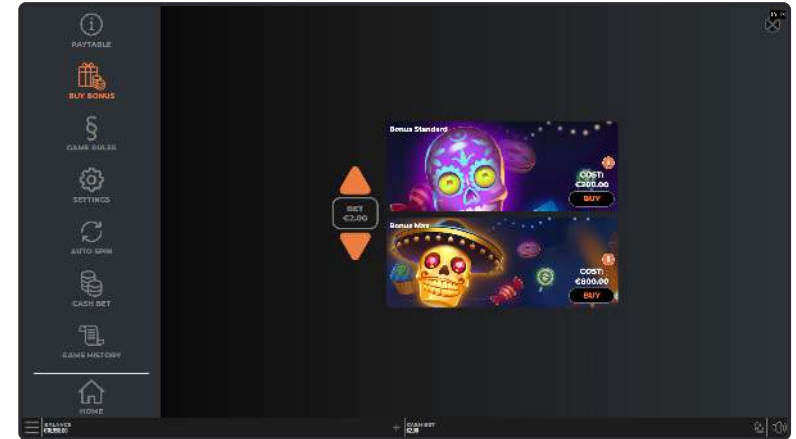

Free Spins with potentially infinite multiplier

Landing 4 or more Scatter symbols in the Base Game allows you to enter the Free Spins session. During the Free Spins mode the Multiplier does not reset, therefore allowing the player to build it up dramatically.

Buy Bonus

It is possible to buy Free Spins with the Buy Bonus feature. There are two options for Buy Bonus: Buy Bonus Standard will award the player random number of Free Spins (8, 12 or 18). Buy Bonus MAX will award the player 18 Free Spins.

Avalanche

When the player lands any Win, all winning symbols are removed and those remaining are pushed down to fill in the empty space. This mechanic works both in the Base Game and during Free Spins. A Wild symbol appears in a random position within the empty space left after the Avalanche. Every Wild landing on the board randomly increases the multiplier by +1, +2 or +3.

Game rules

Welcome to Calavera Crush Video Slot with Free Spins, Dropdown wins, Multipliers, and more features.

ABOUT THE GAME

Calavera Crush is a Video Slot with 6 reels and 5 rows. Landing 8 or more identical symbols anywhere on the reels awards a win. The game has 4 regular high paying symbols, represented by skulls and 6 low paying symbols represented by sweets. There is a wild symbol that substitutes all regular symbols. There is also a Free Spin symbol that awards Free Spins and a bomb symbol that awards a multiplier.

Dropdown Feature

This game features Dropdown wins, meaning that winning symbols disappear from the reels, leaving room for new symbols to drop down (Extra Free Spin symbols can also land in dropdowns). Each time the player gets a Dropdown win, a wild is added to one of the winning positions before the rest of the slot positions are refilled.

Multipliers

Every dropdown win increases the multiplier by 1-3x in the base game and 1-10x in Free Spins. The multiplier is reset after every losing dropdown in the base game. In Free Spins the multiplier does not reset within the session.

Free Spins

Landing 4 Free Spin symbols awards 8 Free Spins. Landing 5 Free Spin symbols awards 12 Free Spins. Landing 6 Free Spin symbols awards 18 Free Spins. Landing 3+ Free Spin symbols in the Free Spin session awards an additional 4 Free Spins. Free Spins are played with the same bet as the activating spin.

Golden Bet

Players can pay x0.25 extra per bet to double their chances of hitting Free Spins.

Buy Into Free Spins

Players can pay x100 to buy into Free Spins with 8-18 Free Spins chosen randomly.

Players can pay x400 to buy into Free spins with 18 Free Spins.

Free Spins Gamble

When entering a Free Spin Session, players can gamble for more Free Spins (unless they already have 18 Free Spins). If they are successful they upgrade their 8 Free Spins to 12, or from 12 Free Spins to 18. If they are unsuccessful the Free Spin session is lost.

HOW TO CALCULATE DROPDOWN WINS

Each symbol's payout is listed in the paytable for all wins.

If a multiplier was activated, multiply the winning amount by the awarded multiplier.

All wins are summed together after the spin.

RETURN TO PLAYER

The expected payback reflects the theoretical return across a very large number of spins by numerous players over an extended period of time and cannot be affected by the player's strategy.

The overall theoretical return to player is 96%

The maximum recorded win is €750,000 and it happened once in 1.000.000.000 simulated game rounds.

RANDOMIZATION

The reels are spun with a fair and equal chance for each stop position by a certified random number generator. For more information, visit <http://www.yggdrasilgaming.com/en/about-us>
