FEATURES

RESPIN FEATURE

This feature can be triggered at the end of any spin without a win. One of the symbols already present on the reels will be selected randomly to be sticky and a re-spin is awarded. During the respins, additional symbols of the same type can land. Every time a new symbol lands a new re-spin will be awarded.

It's possible to land Multiplier symbols (1x, 2x and 3x) which do not stick but will award an additional re-spin. Multipliers will be added together and awarded to the final win amount.

The re-spin feature ends when no new symbols land.

FEATURES

MONEY CART BONUS ROUND

The Money Cart bonus round is triggered by landing 3 or more BONUS symbols anywhere on the reels

The Persistent (gold) symbols can substitute for the BONUS symbols when triggering the Money Cart bonus round.

Once the bonus round starts, the symbols that trigger the feature will reveal a value which is displayed as a multiplication of bet and awards 3 spins.

In the case a Persistent symbol was used in triggering the bonus round, it will perform its action once before the first spin.

When you fill a column with symbols, an additional column will be opened.

This can happen a maximum of two times in one bonus round. During the bonus round it's possible to land additional symbols (see Symbol Behaviour page).

WIN UP TO 100,000X YOUR BET!!!

If the sum of all values reaches 100,000 or higher, the bonus game ends and the player is awarded 100,000 x bet.
