

## FISHER KING

As the legend goes, the Fisher King is trapped in his castle due to a fatal injury. All he is able to do is fish in a small boat on the river near his castle. Days pass and he waits and hopes for a noble player to bring him a cure and set him free. However, only one ailment is known to work on his wound - the Holy Grail lifeblood. With the help of thoughtful players, the cure can be found to heal his wound, replenish his soul, and get the old Fisher King back to the open sea. Will you be able to find it?

As soon as the Holy Grail lands on the reels, the broken heart located under the relevant reel is replenished with lifeblood. Two drops are enough for a full recovery and the Fisher King is set free. Your reward entirely depends on the number of hearts replenished simultaneously. The higher this number is, the better the award, and the healthier the King. When hearts are not fully replenished, they don't accrue any reward: you will continue to replenish them in the next Free Games series. For 5 fully replenished hearts, the player is paid 2000x total bets.

This new slot has 5 reels, 3 rows and 20 paylines. Matching symbols should be on enabled paylines and adjacent reels, starting from the leftmost. Wins on different paylines are added. SCATTER symbols count at any position on the reels - 10, 15, or 20 Free Games are triggered by 3, 4, or 5 SCATTER symbols respectively. The WILD golden crown substitutes for all symbols except SCATTER. The WILD is stacked during the Free Games.

Players can double their winnings up to 10 times during the Classic Risk Game. Bonus Pop is also available in this game.
