About Red Tiger Jackpots

Like all Red Tiger slots, Zaida's Fortune may be taken with or without Red Tiger jackpots. If a jackpot version of the base game is taken, it must be paired with a jackpot contribution to get the final overall RTP of the game. For example pairing the with-jackpot base game certified at 94.75% RTP and adding a 1% jackpot contribution gives an overall RTP of 95.75%. The RTP of the jackpot contribution itself is 100%.

FEATURES IN THE GAME

FORTUNE SPINS

3 Fortune Spins scatters on reels 1, 3, and 5 will trigger 5 Fortune Spins. At the start of the bonus round, Zaida shuffles 3 cards, each representing one of the features available in the normal game. The player must pick one card. The feature that is revealed will be active for the duration of Fortune Spins.

After the last Free Spin, the player will be granted the opportunity to pick again. The previously picked card will become a "Collect" card and will be shuffled back with the remaining feature cards. Then, if the player picks the "Collect" card, the bonus ends and all wins accumulated during the bonus round will be paid out.

If the player picks a different feature card, the bonus round continues with 5 more Free Spins in which the newly picked feature becomes active in addition to the one awarded from the previous pick. The result of the previously picked feature remains unchanged after each retrigger.

Ultimately, the player may retrigger Fortune Spins twice for a total possible 15 Fortune Spins and have 3 features active after the second retrigger.

SYMBOLS

The mystique surrounding fortune tellers provided the inspiration for the game. High-paying symbols are based on the iconography found on tarot cards. Low-paying symbols are card suits. The Wild symbol is depicted as the Eye of Providence. It's a mystical gaming experience that will excite and amaze!
