CLUSTER CASCADES

Any 5 or more matching symbols in a single cluster on the grid will trigger a win - all winning combinations will also explode and cascade, allowing more symbols to drop down, often resulting in multiple combination wins.

WILD MULTIPLIERS

When a Wild lands it will fly up to one of the Golden Totems and have a chance to trigger a multiplier of up to 50x - multiple Totems can activate, with the values added together for a possible maximum multiplier of 250x.

FREE SPINS

The Free Spins feature is triggered when 3 or more Bonus symbols land anywhere on the grid, either on the initial drop or during cascades, awarding 8 spins for 3 symbols up to a maximum of 20 spins for 7 symbols.

GOLDEN TOTEMS

After each Free Spin the lowest Golden Totem multiplier is removed, meaning the minimum multiplier that can be triggered will always be increasing, leading to higher potential as the feature progresses.
