

# MULTIPOP™ ZOMBIE APOCALYPSE

Brand new feature alert – MultiPop™ – enters the fray with a shambling walk of an undead menace!

Join the harsh world of zombie infestation where unlucky survivors have to run away from the dreaded plague of the undead. Watch the Zombies get bigger with a growing Multiplier on Symbols with the MultiPop™ mechanic. Fill the board with Multipliers during Bonus Round to gain additional Free Spins, especially since the Multiplier Zombie Infection grows stronger, and the Multiplier persists between rounds during Bonus Round.

MultiPop™ – Winning Combination pops and the next symbol on that position slot gets a multiplier. Any progressive win on the same symbol slot raises the multiplier for that spin cycle.

## HOW TO CALCULATE WINS WITH “WIN ALL WAYS”

- To calculate your total WIN ALL WAYS win, add all your symbol wins together
- To calculate a single symbol win, count the number of subsequent reels that contain the symbol, starting from the left or the right

- If the number of subsequent reels containing the symbol is three or greater counting from the left, find the corresponding win amount in the paytable, otherwise, if the symbol was not present on three subsequent reels counting from the left, count from the right
- If the number of subsequent reels containing the symbol is three or greater counting from the right, find the corresponding win amount in the paytable
- If any of the reels contain more than 1 instance of the winning symbols, the win will be multiplied. Multiply the number of symbols on each of the reels to get the final multiplier. For example, if the first reel contains 2 symbols, the second reel 3 symbols, and the third reel 2 symbols, the paytable value is multiplied in the following manner:  $2*3*2=12$  (total multiplier)
- 5 of a kind wins only pay from one side During gameplay, different way wins are added together

## **MultiPop™ feature**

Winning symbols 'Pop' and new symbols appear in their place The cell of the winning symbol has a +1x multiplier applied to it. The multiplier is locked to the reel cell, not the symbol itself. The maximum Cell multiplier that can be reached during the base game is X5. When reaching an X5 Cell multiplier in the base game, 4-12 cells get upgraded with an additional +1x on cell multipliers landed on random cells. During Free Spins the on-cell multiplier does not reset between new spins

and is persistent. The reels in the base game are 4 symbols high with 2048 ways to win and 5 symbols high in Free Spins with 6250 ways to win. Pops ends when there are no more wins in the panel Pops are played with the same bet as the base game
