Game Theme and Graphics

This night, wild nature of the Blue Mountain is especially captivating, ornamented by the light of the full moon. The great river runs through the forest. The residents of the dark woods are familiar: the noble wolf, acting as Wild symbol, and its proud comrades – bear, eagle, goat and owl, which are highly-paying symbols. Display of Scatter symbols with the distant image of a rocky peak activates Free spins mode. The wolf expands its pack on the reel during Free spins only to ensure its victory. The hunt reaches high-point at dawn with the start of the Bonus game – the sky turns red in the ray of rising sun - and the reels are dominated by Bonus symbols in form of electric balls and Power symbols represented as coins. Booster symbols are up-and-down arrows, that show the direction of expanding reel. The expanding glow concentrates at the bottom of a reel, where the value of a multiplier is seen. Their activity is reflected by increasing multiplier at the foot of reel. The game once again shows the reaches that nature can grant to humanity.

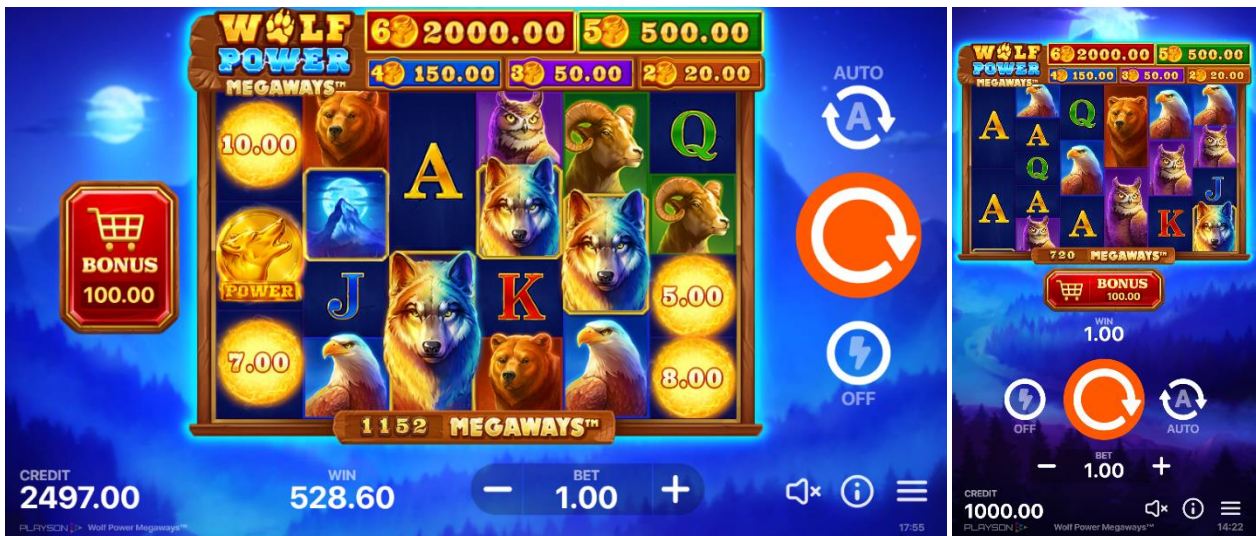

Game screen

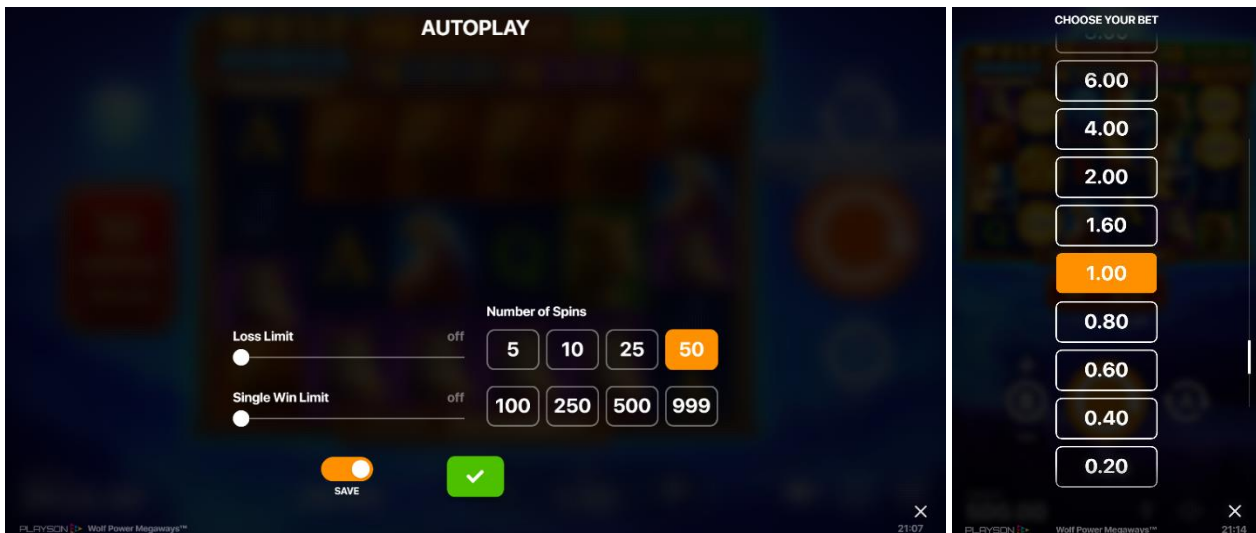

The screen footprint of the game display is 1280x720 pixels and comprises of two main elements – video display area and game panel.

Game Features

Wild symbol

Wild substitutes all symbols except Scatter, Bonus and/or Power. Appears in main game only. There are payouts for this symbol according to the Pay Table.

Scatter symbol

3 or more Scatter symbols during Main Game trigger Free Spins:

- 6 Scatters = 25 Free Spins
- 5 Scatters = 20 Free Spins
- 4 Scatters = 15 Free Spins
- 3 Scatters = 10 Free Spins

There are no payouts for Scatter symbol.

Bonus symbol

Combination of 6 or more Bonus and/or Power symbols triggers Bonus Game. Payment is indicated on the symbol in currency: from x1 to x10 bets. Bonus symbols pay only during Bonus game.

Power symbol

Combination of 6 or more Power and/or Bonus symbols triggers Bonus Game. Power symbols pay only during Bonus game. There are payouts for this symbol according to the Pay Table.

Megaways™ feature

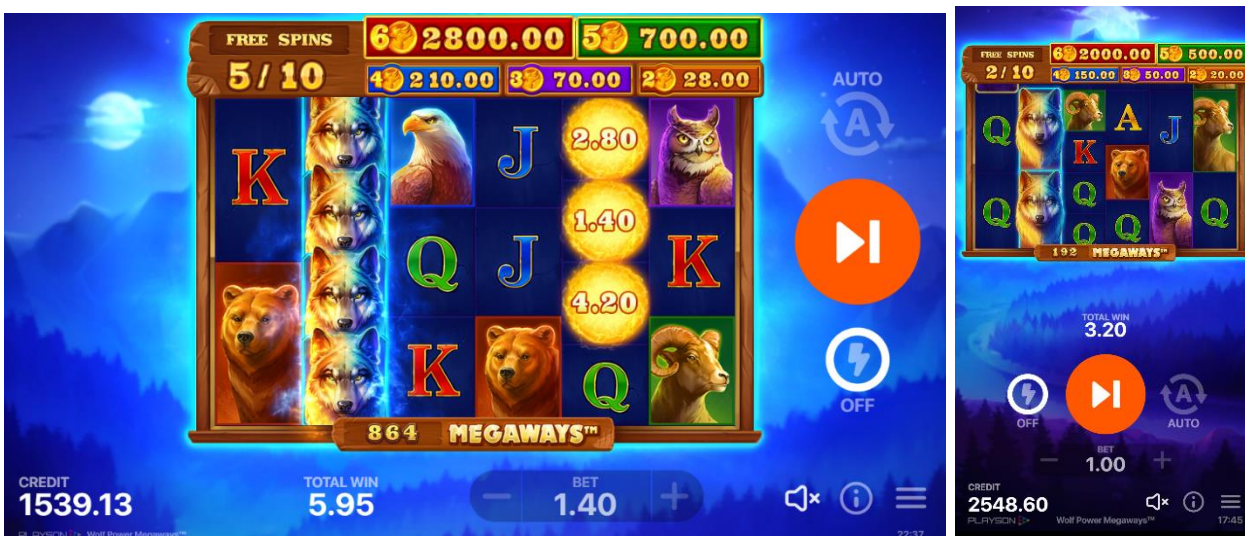

Each spin can give up to 46, 656 ways to win. Win by landing 2 or more identical symbols regardless of size on consecutive reels from leftmost to rightmost. Each spin gives a random number of symbols from 2 to 6 on reels 1-6.

Free Spins

3 or more Scatter symbols during Main Game trigger Free Spins mode:

- 6 Scatters = 20 Free Spins

Randomization

Random Number Generator (RNG)

The algorithm used for random number generation (RNG) is Quantis, physical random number generator exploiting an elementary quantum optics process. Quantis has been evaluated and certified by the Swiss Federal Office of Metrology (also known as METAS), the Swiss national organization in charge of measurement science, testing and compliance. It confirmed that the quality of its random output complies with the highest requirements. See the Certificate of Conformity and read the Test Report on <http://www.idquantique.com>.

Quantis has also been evaluated by Compliance Testing Laboratory (Bangor, UK), which confirmed that it is "suitably unpredictable and fit for purpose". Download certificate in PDF format <http://marketing.idquantique.com/acton/attachment/11868/f-0117/1/-/-/-/-/Quantis%20Certifications%20Collection.pdf>.

Quantis has also been approved by national authorities and can be used for gaming applications.

Malfunction Management

If a player attempts to access a game using an invalidated session, (for example, due to inactivity or system restart) an error message is displayed in the game. The player can then log on again and resume game play. The game state is always stored so the player can resume game play exactly where he or she left off.

In case of an HTTP error, network timeout or server error a "technical error" message will be displayed to the player.

Information to the Player

Players have access to game rules from within the game at all times.
