## Win Celebrations

There are four (4) tiers of win celebrations depending on how much the player wins. Win types are cumulative, meaning the counter and fanfare will “ramp up” until the highest win type is reached, with each win type having a larger coin fountain effect and more sound effects.

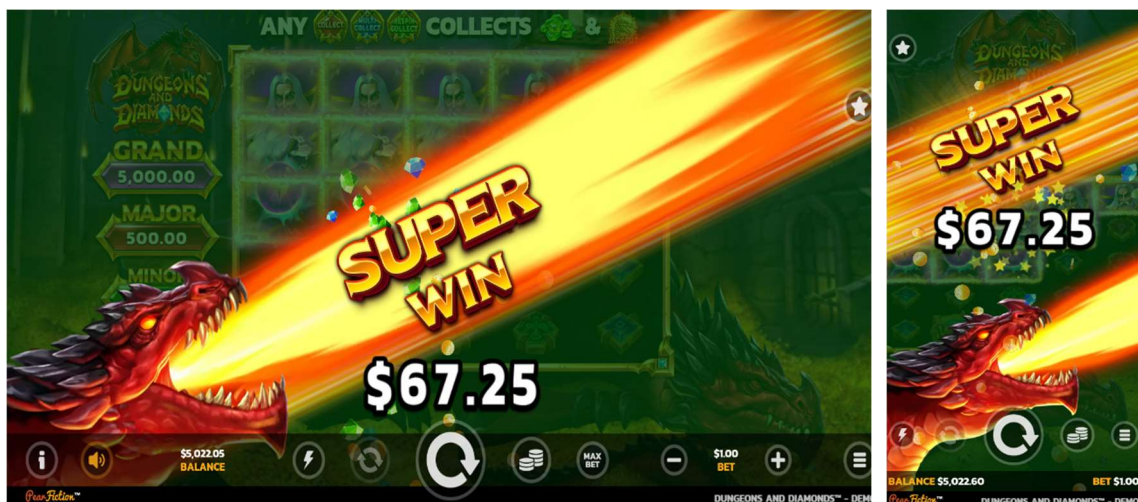

### Big Win

A big win is triggered when the player gets a win of at least 25x their total bet. The counter will show BIG WIN above it and the game will play a sound to draw the attention of the player.

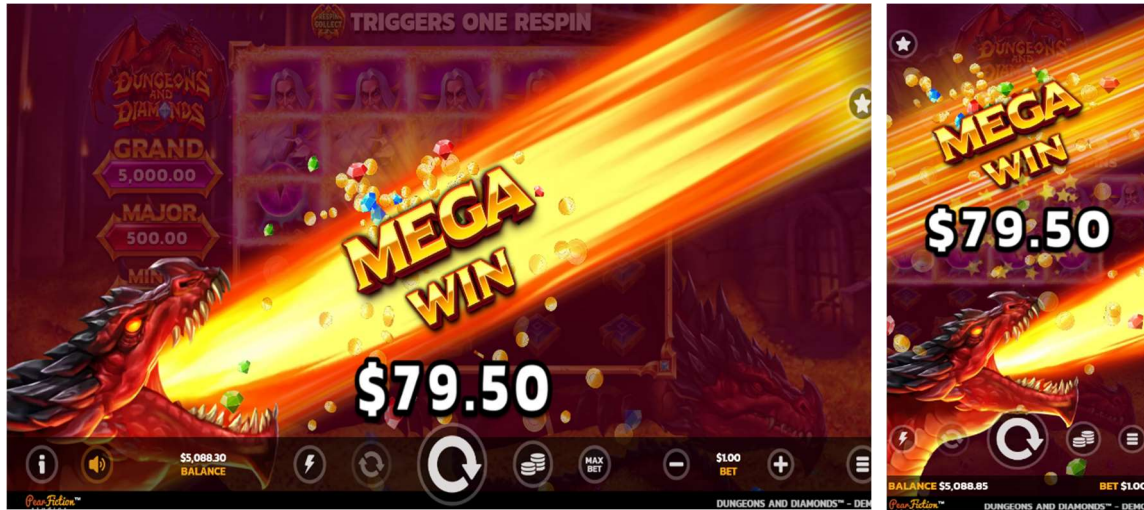

### Super Win

A super win will be triggered when the player gets a win of at least 50x their total bet. The counter will show SUPER WIN above it and the game will play a sound to draw the attention of the player.

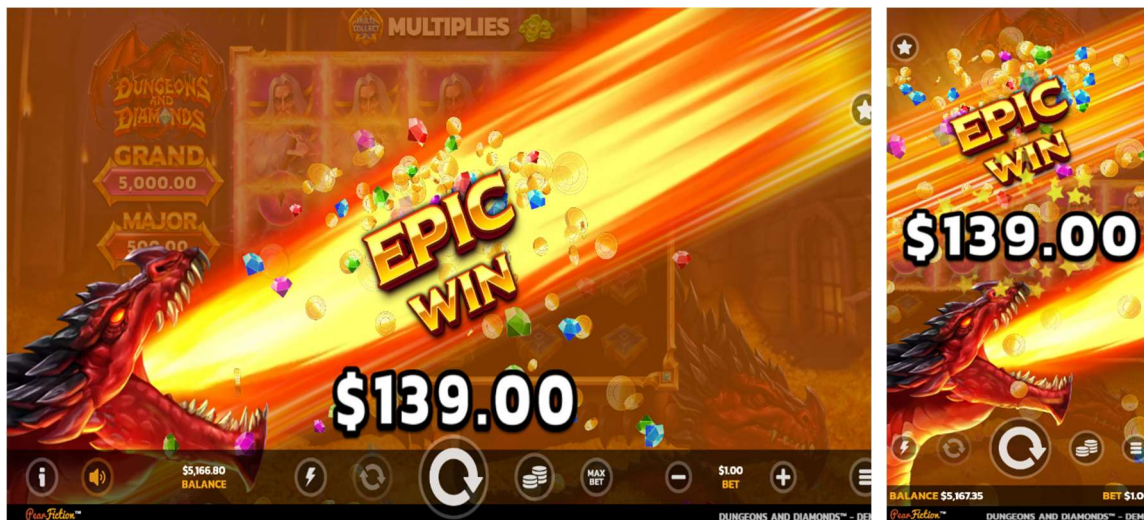

## Mega Win

A mega win will be triggered when the player gets a win of at least 75x their total bet. The counter will show MEGA WIN above it and the game will play a sound to draw the attention of the player.

## Epic Win

The epic win will be triggered when the player gets a win of at least 100x their total bet, at which point the coin fountain effect will grow to its largest size, with even more coins appearing on screen. The counter will show EPIC WIN above it and the game will play a sound to draw the attention of the player.

## Business Reasons

### Studio Intro

Founded in 2014 in Montreal, PearFiction Studios specializes in the creation of innovative online casino games that combine unique mathematics, a blend of story, humor, and exciting art, and commitment to responsible gambling.

PearFiction Studios' games draw inspiration from classic land-based casino titles with proven success. The game developer approaches the creation of content with a portrait-first focus and the implementation of fun mechanics to provide players with choice and the best possible experience.

### Game Math Model

The math model is similar to Chicago Gold as it is inspired by John Hunter and the Scarab Queen, with multiple different kinds of Collect features that trigger frequently, enough to keep players consistently engaged. When a Gem symbol appears on the reels with one of the Collects in the fifth reel, a cash prize is awarded - a regular Collect gives the amount shown on the Gem, a Multiplier Collect multiplies each Gem symbol's value, a Re-spin Collect re-spins all high and low value symbols, and a Jackpot Collect awards the Gem symbol value and launches the bonus game. Through the Jackpot Collect, up to 5000x bet can be won in a picker game. The Free Spins game has unlimited retriggers and more chances to win Collects.

### Art Direction

Inspired by Dungeons & Dragons, the game features an iconic red dragon, surrounded by treasure. The characters are inspired by the traditional classes within fantasy gaming. The colour palette is dark, with warm tones that make the characters and symbols pop on the reels!

### Sound Direction

The music is epic and immersive, really bringing a fantasy story to life. When the reels drop into place, you can hear coins rustling.

The sound effects really bring the well-known, popular role-playing game to life.
