Examples for €1 Bet

Banker and Player

The max. bet you can have on the Player/Banker with min. bet €1 is €70.

It pays 1:1 (the bet is returned), you get €70 (+€70)

Tie

The max. bet you can have on the TIE with min. bet €1 is €15

Tie pays 8:1 (bet is returned), so $15 \times 8 = \text{€}120$ (+€15)

How to Play

Place a bet.

Press the Deal button to start the game.

Two cards are dealt to the Player's game and two cards to the Banker's game alternately.

If the value of the Player's game is between 0 and 5, a third card will be dealt to it. According to the value of the third card and the score of the Banker's game, the dealer may also be dealt a third card.

Placing a Bet:

Bets are placed by clicking or dragging the desired chip or by clicking on a betting area.

There are 3 betting areas and 5 chips.

The chip range is: 1, 5, 10, 25 and 50 Euro or the closest equivalent in your chosen currency.

Players can bet the desired amount in each game (Player, Banker and Tie), as long as the minimum and maximum bet limits established by the game are respected.

Players can bet simultaneously on the chance of Player and Banker, as long as the difference in value between both bets is equal or higher than the minimum bet.

Players can rebet which sets the same Bet as their previous hand.

Bets are only final once the player clicks/taps on the deal icon or the timer runs out.

Chips on the table can be returned before the timer runs out by clicking/tapping on the clear or undo icon.

How to Win:

The objective of the game is to predict which game – Player or Banker (Dealer) – will have the highest value, or whether there will be a tie.

The game score can have a maximum value of 9 and this is obtained after two or three cards are dealt.

If the Player has a game of value 8 or 9, it is considered to be a natural and automatically wins, unless the Banker's game also has 8 or 9.

How to Calculate Winnings

A victory on a bet on Player or Banker's game has a payment of 1 to 1 and the original bet is returned.

A victory on a bet on Tie pays 8 to 1 and the original bet is returned.

If the result is a Tie but the player has bet on the Banker's or Player's victory, the player receives his

bet back.

In the case of a Banker victory whose score is 6 points, a commission of 50% is charged.

The Cards

In this game, 8 decks of 52 cards each are used. The cards are always shuffled at the end of each round.

2 to 9 – Cards with these values have exact match in points.

Jack, Queen, King and 10 – The “figures” and 10 have a value of zero points.
