THE GREAT PIGSBY MAKES A TRIUMPHANT RETURN WITH MEGAPAYS!

This time, everything is Mega and in no small measure - Megaways & Megapays, offering 117,649 winning ways, with 1 Global and 3 Local Jackpot offerings!

There's the chance to land the free spins feature or as the exploding piggy bank feature, awarding ten free spins, the Wild Re-Spins and the Great Pigsby Re-Spins feature!" It sounds like you can land the Free spins feature in some additional way and is a bit confusing. Prefer a formulation perhaps similar to this instead: "Any landed Wild symbol gives a chance to explode the Piggy Bank which will award either 10 Free Spins, Great Pigsby Re-spin or Wild Re-spin.

During the Megapays Jackpot feature, you aim to climb the Megapays ladder to reach the top - claiming the Mega pot with its uncapped potential!

Come and join in the fun!

FEATURES

THE PIGGY BANK

Any Wild symbols landing on the reels will expand to cover the entire reel and be collected in the piggy bank above the reel area. Each collected Wild gives a chance to trigger Free Spins, Great Pigsby ReSpin or Wild Re-spin. The state of the piggy bank does not affect feature trigger probabilities.

FREE SPINS

10 spins are awarded.

Whenever a scatter symbol lands, 2 additional spins are awarded, and one of the royals (A, K, Q, J, 10) is deactivated on the reels. In all the coming spins, all instances of that symbol are replaced by a high or mid value symbol.

The lowest paying royal symbol is deactivated first, followed by the second lowest and so on. When all royals have been deactivated, any new scatter appearing will still reward 2 additional spins.

The different deactivated royal symbol types can be replaced by different or the same high/mid value symbol.

WILD RESPIN

In Wild Re-spin, the player is awarded a re-spin where 2-5 reels are turned wild before the reels have stopped. The multiplier value on the Wild reels shows how many wild symbols the wild reel represents.

FEATURES

GREAT PIGSBY RESPIN

In the Great Pigsby re-spin, a number of Pigsby symbols (the highest value symbol) are placed as overlay symbols on the reel area before any reels stop.

MEGAPAYS

Overview

There are four Megapays Jackpots: MINI, MIDI, MAJOR and MEGA. All four Megapays Jackpots are progressive, which means that every time a bet is made a portion of the bet is added to each Jackpot.

Any one of the Megapays Jackpots can be won during a Megapays Feature. A Megapays Feature can be triggered from any bet. Higher stakes increase the chances of triggering. Triggering the Megapays Feature fully lights up the MEGAPAYS logo.

The Feature

At the start of the Megapays Feature either the Ace, King, Queen, Jack, Ten or Nine symbol will be revealed as the Megapays Symbol.

A special spin then occurs. If one or more instances of the Megapays Symbol appear then all other symbols are removed, each instance of the Megapays Symbol drops and locks into place, and a respin occurs. Respins continue until no additional instances of the Megapays Symbol appear, or until the MEGA Jackpot is won, whichever occurs first.

The Megapays Ladder keeps track of how many instances of the Megapays Symbol have occurred. The total number of instances of the Megapays Symbol in the final result determines which Jackpot, if any, is awarded:

- 4 to 7 instances = MINI Jackpot
- 8 to 11 instances = MIDI Jackpot
- 12 to 14 instances = MAJOR Jackpot
- 15 or more instances = MEGA Jackpot

No other wins or pays occur during the Megapays Feature.
