X BET RESPIN FEATURE

This is the X symbol. It appears only on reel 1.

This is the blank symbol. It has no value and represents an empty spot.

These are the digit symbols. In the respin they are used to form X total bet awards.

Whenever one or more X symbols hit, a respin is triggered.

During the respin, the X symbols remain in place and all other symbols fade away being replaced by blank symbols. A spin happens and symbols with digits from 0 to 9 or blank symbols will stop in all positions on reels 2, 3, 4 and 5.

After the spin, for each row that contains an X, the digits will form a number from left to right which will be translated into a number of total bets awarded.

The total win of the respin is formed by the number of total bets awarded on each of the rows that contain an X symbol.

Special reels are in play during the respin feature.

After every respin the digit symbols will form a number from left to right which will be translated into a number of total bets awarded.

The total win of each free spin is formed by the number of total bets awarded on each of the rows.

If as the result of any free spin only blank symbols hit on reels 2, 3, 4 and 5, 3 more free spins are awarded.

Special reels are in play during the free spins feature.

MAX WIN

The maximum win amount is limited to 9,000x bet. If the total win of a respin or free spin would be higher than the limit the awarded value will be rounded to . If the total win of a FREE SPINS round reaches 9,000x the round immediately ends, win is awarded and all remaining free spins are forfeited

SUPER SPIN ANTE BET
