Base Cost

When configuring a game, you can set a **Base Cost Multiplier**, which multiplies the Base Cost (minimum size bet) set by Playtech. This means that while the number of lines or ways in this game can be 40/50 or 1024/3125, respectively, the Base Cost to play is set to 10 by Playtech - you can then set a Base Cost Multiplier to set the stake levels for the game.

This is an innovative feature that allows Playtech to offer games that are more amenable to cheap Free Spins Bonus promotions, while still allowing Playtech games to deliver the full range of features and winlines.

For example, on this game the Free Spins Bonus can be promoted at a cost of 10p (Base Cost Multiplier 1), while still being able have the game available at a default cost of 20p (Base Cost multiplier 2) or even 40p (Base Cost multiplier 4).

There are no fractional betting and rounding concerns.

Examples are in the table below:

Base Cost Multiplier	Stake (GBP Example)
1	10p
2	20p
3	30p
4	40p
5	50p

In addition to the base cost, licensees should also set a maximum total bet. It is recommended this is set in relation to what the max win cap will be.

Examples are in the table below:

Win Cap	Recommended Max Total Bet
£ 100,000	£5.00
£ 200,000	£10.00
£ 250,000	£12.50
£ 500,000	£25.00
£ 750,000	£37.50
£ 1,000,000	£50.00
£ 1,500,000	£75.00
£ 2,000,000	£100.00
£ 2,500,000	£125.00

Symbol Details

WILD

The **WILD** symbol can substitute for any other symbol, except **SCATTER**, to make the best possible winning combination.

SCATTER

When 3 or more **SCATTER** symbols appear anywhere on the reels, the **Free Games Feature** is triggered.

The **SCATTER** symbol can appear on all reels and pays 1, 10 or 50 × total bets depending on how many symbols have triggered the **Free Games**.

Game Feature

Wild Darts Feature:

During any main game spin, up to 10 darts may land on the spinning reels.

Each landed dart will transform into a **WILD** symbol before the reel spin completes.

The added **WILD** symbols can contribute to the line win evaluation.

If an added **WILD** symbol covers a **SCATTER** symbol, the **SCATTER** can still contribute to a feature trigger.

Free Games Feature:

3 or more **SCATTER** symbols in any position trigger the **Free Games Feature**.

6 **Free Games** are awarded initially.

At the beginning of the feature, Bobby George™ has 3 darts to throw at the **Free Games Improvements** dartboard.

Each dart throw will award one of the 12 improvements available:

RANDOM WILDS	Up to 10 random Wilds may land on the reels during any Free Games spin. These Wilds can contribute to line and ways wins.
+5 SPINS ADDED	5 additional Free Games will be awarded.
WAYS	All symbols will be evaluated as ways pays instead of line pays.
3X MULTIPLIER	A 3x multiplier will be applied to all line and ways wins.
STICKY WILDS	Any Wild symbol that lands during the Free Games will remain for the duration of the Free Games.
5X MULTIPLIER	A 5x multiplier will be applied to all line and ways wins.
5X5 EXPANSION	During Free Games, the reel array will expand to have 5 rows. If line pays are active, 50 lines will be evaluated. If ways pays are active, 3,125 ways will be evaluated.
+8 SPINS ADDED	8 additional Free Games will be awarded.
EXPANDING WILDS	Any Wild symbol that lands will expand to fill the reel it landed on.
2X MULTIPLIER	A 2x multiplier will be applied to all line and ways wins.
NO ROYALS	There will be no Royal symbols on the Free Games reel strips.
+3 SPINS ADDED	3 additional Free Games will be awarded.

During **Free Games**, 3 or more **SCATTER** symbols landing simultaneously anywhere on the reels will award additional **Free Games**. The number of additional **Free Games** awarded will equal 6 plus any additional spins awarded by the dartboard improvements at the beginning of the feature. The **Free Games Improvements** round will not re-occur.

Free Games are played with the same bet that was placed on the spin that triggered them.

Sporting Legends™ Jackpot:

The Daily Jackpot ticker shows the value of the Daily Jackpot. The jackpot is guaranteed to be won within the remaining time displayed on the ticker.

The central ticker shows the value of the Mega Jackpot.

The Weekly Jackpot ticker shows the value of the Weekly Jackpot. The jackpot is guaranteed to be won within the remaining time displayed on the ticker.

Any bet of any size can win the Daily Jackpot, the Weekly Jackpot or the Mega Jackpot, but the larger a bet is the more likely it is to trigger 1 of these jackpots.

The jackpots are linked to several games, which are available through multiple casinos. The jackpots can be won by placing a bet in any of these games in any of the participating casinos.

For each bet placed, the operator contributes to the jackpot fund. Each contribution is equal to 2% of each bet placed. 84.5% of each contribution funds the current jackpots, and 15.5% funds the seed pot for the next jackpots.

The seed pot funds the Daily Jackpot seed, the Weekly Jackpot seed and the Mega Jackpot seed. (The seed is the amount of money a jackpot begins with.)

As the Daily Jackpot, the Weekly Jackpot and the Mega Jackpot are funded by the operator, these jackpots do not affect the RTP of the game.

Funds may sometimes be removed from the seed pot to fund other promotions. The terms and conditions of these promotions are available on the casino website throughout the promotion periods.

If the current Daily Jackpot is won before 9:00 p.m. GMT (BST during British Summer Time), 1 or more additional jackpots may become available to win within the remaining time shown in the Daily Jackpot ticker.

If the current Weekly Jackpot is won before 12:00 p.m. GMT on Saturday (12:00 p.m. BST during British Summer Time), 1 or more additional jackpots become available to win within the remaining time shown in the Weekly Jackpot ticker.

Note:

- If 2 players win a jackpot at the same time, the 1st player will be awarded the seed and the progressive amount, and the 2nd player will win the seed together with any accumulated progressive part accrued in the time between when the 1st player won the jackpot and when the 2nd player won the jackpot.
- If no gameplay takes place at the time at which a jackpot must be won (either the Daily Jackpot or the Weekly Jackpot), then that jackpot will be triggered by the first bet placed the following day.
- Game malfunctions void all payouts.

Jackpot Ticker Specification

As the Sporting Legends™ Jackpot has jackpots that are guaranteed to be won by specified times, additional timing data must be shown in the tickers. This is done via a new attribute of the amount element: guaranteedHitTime. Information about this attribute is available on page 15 of the Playtech Progressive Jackpot Ticker Specification document.

Example of XML responses per jackpot level (these are examples with Playtech casino: licensees need to use their own relevant instances names and ticker URLs).

Level 1 – Daily JP:

```
<request currency="eur" startTimestamp="1516790427" execInterval="600" game="sljp-1" casino="playtech" info="1">
<gamedata timestamp="1516790521" local="0" winc="0" gamegroup="sljp" game="sljp-1">

</amount-list>
</gamedata>
</request>
```

Level 2 – Weekly JP:

```
<request currency="eur" startTimestamp="1516790427" execInterval="600" game="sljp-2" casino="playtech" info="1">
<gamedata timestamp="1516790525" local="0" winc="0" gamegroup="sljp" game="sljp-2">

</amount-list>
</gamedata>
</request>
```

Level 3 – Regular JP (no countdown = no guaranteedHitTime attribute):

```
<request currency="eur" startTimestamp="1516790427" execInterval="600" game="sljp-3" casino="playtech" info="1">
<gamedata timestamp="1516790527" local="0" winc="0" gamegroup="sljp" game="sljp-3">
<amount-list>
<amount pos="0" sign="€" step="0" wins="0.00" instancecode="" currency="eur">120000.00</amount>
</amount-list>
</gamedata>
</request>
```

Example of Level 1 XML response with the new parameter highlighted:

```
<request currency="eur" startTimestamp="1516621201" execInterval="600" game="sljp-1" casino="playtech" info="1">
    <gamedata timestamp="1516621284" local="0" winc="0" gamegroup="sljp" game="sljp-1">
        <amount-list>
```

```

        <amount pos="0" sign="€" step="0" wins="0.00" instancecode=
        "" currency="eur" guaranteedHitTime="1513123200">1200.00</amount
        >
    </amount-list>
</gamedata>
</request>

```

In case of custom implementations, these are the expectations that should be met:

- Level 1 and Level 2 should alternate between the countdown and ticker values every 5 seconds.
 - Level 3 is a regular ticker without the countdown.
- The countdown should be shown in hours, not days (HH:MM:SS).
- The *guaranteedHitTime* parameter in the xml is a Unix timestamp that represents the jackpot win time in UTC time. The countdown must always display the time left until the guaranteed hit time (this countdown time is identical for every time zone).
