Wanted Dead or a Wild
Game ID: 1067/1114/1115/1116

GAME DESCRIPTION

Step into our rough Western themed game filled with merciless outlaws, deadly duels and legendary robberies. Wanted Dead or a Wild is an action packed 5 x 5 grid slot featuring a max win of up to 12,500x!

FEATURE VS symbols

A landed VS symbol will only activate and expand if it's part of or will create a win once expanded, it will then expand to cover the whole reel and turn into a wild multiplier. There are two outlaws in the expanded symbol, each with a random multiplier value. Once the duel feature is complete, the surviving outlaw's multiplier will be multiplied by any winning lines the wild multiplier is part of.

If you land more than one VS symbol the values will first be added and then multiplied with the line wins. The possible multiplier values are 2x, 3x, 4x, 5x, 6x, 7x, 8x, 9x, 10x, 20x, 25x, 50x and 100x.

If you land one VS symbol on each reel so that the whole grid is covered, the grid will be treated as entirely WILD. The VS symbols exist both in the base game and in the Duel at Dawn bonus feature.

The Great Train Robbery

Land three or more TRAIN ROBBERY symbols to trigger The Great Train Robbery bonus feature. This is a sticky wilds bonus game with 10 free spins. All landed wild symbols will remain sticky for the duration of the feature.

Duel at Dawn

Land three or more DUEL symbols to trigger the Duel at Dawn bonus feature in which you will get 10 free spins. This feature is loaded with more VS symbols than in the base game. See the section regarding the VS symbols for more information.

FEATURE

Dead Man's Hand

The Dead Man's Hand bonus feature is triggered if you land three or more DEAD symbols. The goal is to collect as many wilds and multipliers as possible during the initial collect phase of this feature. Wilds are collected to the left above the reels and the current total multiplier value is shown to the right. Every time you collect either a wild or a multiplier, the number of remaining spins is reset to 3. The collect phase continues until you get three non-winning spins in a row.

The game will then change into a "showdown" phase, which is the second phase of this feature, where three spins are awarded. Each of the showdown spins will have the number of collected wilds applied to the grid, and all wins will then be multiplied with the collected total multiplier. The meter next to the grid displays the number of remaining spins.

The symbols appearing in the feature:

Wild and Multiplier symbols

These symbols are non-winning in the collect phase

Special Symbol

The wild symbol substitutes for all symbols except the bonus game symbols and VS symbols.
