GAME DESCRIPTION

Tasty Treats is a delicious treat-themed game set in a mouth-watering world. It features Bubble Boosters, which is a feature with bubbles containing overlaying multipliers and wild symbols. The game is cluster-win based, has a 6x5 grid and a max win of 10,000 times your bet.

FEATURES

BUBBLE BOOSTERS

Bubble Boosters is an exciting feature that consists of rising bubbles that will burst over the grid over a random position. The bubbles can be of different sizes and can contain both overlaying multipliers and wild symbols. If the multipliers land on a winning cluster the value will be multiplied by the win amount.

Each spin or collapse has a random chance to trigger 1, 2, 3, 4 or 5 bubbles, each of size 1x1, 2x2 or 3x3. The bubbles can land partially outside the grid.

The smallest bubbles contain one feature symbol and cover one position on the grid once they burst. The biggest ones contain 9 feature symbols and can cover a 3x3 grid once they burst. The overlaying multipliers can have the values 2x, 3x, 4x, 5x, 6x, 7x, 8x, 9x, 10x, 25x, 50x or 100x.
If two or more multipliers land on the same position or on the same winning cluster, their values are first added and the total is then multiplied by the win amount.

FREE SPINS

Land three free spins symbols to trigger this feature. Each FS symbol that lands on the grid will transform into a number. The total number of free spins is the sum of all the numbers. Each FS symbol can transform into 2, 3, 4 or 5 free spins. The total number of free spins you can win is between 6 and 15.

This feature has more Bubble Boosters compared to the main game.

There are also re-trigger free spin symbols in this feature to give you even more spins!
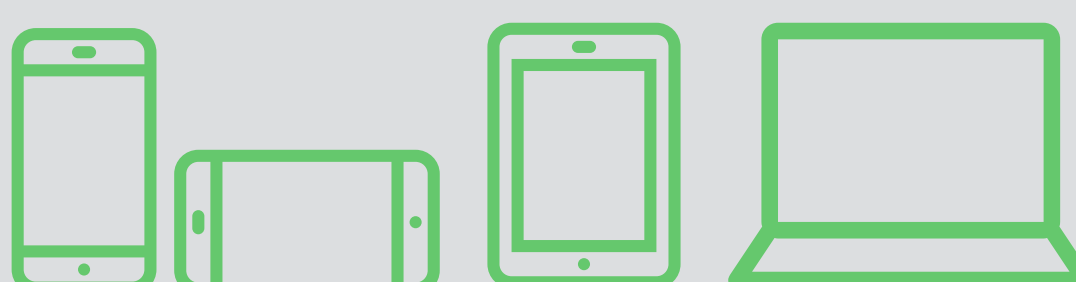

MONSTER HAND

The monster hands trigger randomly and remove symbols from the grid to make way for new ones. The monster takes all symbols either from the first three columns, the last three columns or all columns.

WILDS

The wild symbol substitutes for all symbols except the free spin symbol.
