

## Introducing Nolimit Cap!

'Nolimit Cap' is a new Nolimit City feature that allows operators as well as the players to choose the Max Win Limit of Kenneth Must Die.

### HIGHLIGHTS

- Operators and players choose the Max Win Limit - 69,000x (default) or 10,000x
- Bonus Buy prices may vary based on which Max Win Limit is selected
- A Higher Max Win Cap allows for a massive increase in Max Win potential
- A Lower Max Win Cap boosts the frequency of features with lower volatility gameplay

## HOW IT WORKS

### 69,000x Max Win

When the Nolimit Cap is enabled, the Max Win is capped at 69,000x (the default setting of the game) whilst maintaining a normal frequency of triggering features.

This is due to the fact that the volatility of the game remains standard.

### 10,000x Max Win

When the Nolimit Cap is disabled, Max Win is capped at 10,000x, this boosts the frequency of triggering exciting features such as:

- **xBet®**
- **xNudge®**
- **xWays®**
- **xHole™**

This is due to the fact that there is a lower volatility within this lower Max Win version.

## FAQs

### Why Nolimit Cap?

Choose your Max Win! Nolimit Cap allows players to enjoy our slots in different ways. They can opt for a lower max win with increased chances to land our xMechanic features or opt for a higher max win for a more volatile experience. We've also kept operators in mind. Operators can enable, lock or disable this feature at their own discretion.

### Can we disable the feature?

Yes, upon request this feature can be disabled or operators may run one setting of the Nolimit Cap if they wish.

### Do we need to do any extra work?

No! 'Nolimit Cap' does not require any additional work on your end. Nolimit Cap will be enabled by default and everything will be enabled on our side - unless you wish to opt out.

### What about Bet Limits?

Bet limits are adjusted according to the Max Exposure of operators and any jurisdictional requirements, depending on the Nolimit Cap setting chosen. Respective to the Max Exposure rule, the bet-levels will increase or decrease accordingly.

### Will all games have Nolimit Cap?

Not at first. We will start with Kenneth Must Die and if the response to this feature is positive, we will review and plan accordingly.
