---

## Lady (Wild)

The Lady symbol substitutes for the following symbols: Ladybird, Rabbit Foot, Horse Shoe, Coin, Clover, Ace, King, Queen, Jack, Ten and Nine.

Wins made using one or more Lady symbols are doubled.

Wins made from only Wild symbols (Lady and Book Scatter) are not doubled.

## Pink Orb scatter

Three or more Pink Orb Scatters award the Free Spins bonus round and awards 15 Free Spins with x3 Multiplier.

Free Spins can re-trigger, awarding an extra 15 Free Spins for each re-trigger. The x3 Multiplier remains the same.

## Book scatter (Wild)

The Book Scatter symbol substitutes for the following symbols: Ladybird, Rabbit Foot, Horse Shoe, Coin, Clover, Ace, King, Queen, Jack, Ten and Nine.

Three or more Book Scatters award the Free Spins bonus round with Expanding Symbol where one of the following symbols are picked at random: Lady, Ladybird, Rabbit Foot, Horse Shoe, Coin, Clover, Ace, King, Queen, Jack, Ten, Nine or Pink Orb Scatter.

After each spin (after all reel wins and / or re-triggers have been paid out) the selected Expanding Symbol is awarded as follows:

- Symbol only expands if there are enough to make a win (two in view for Lady, Ladybird, Rabbit Foot, Nine and Pink Orb Scatter and three for all other symbols).
- All selected symbols expand to cover 3 positions on their reel.
- The resulting selected symbol win is paid out on all 10-win lines for number of symbols (not from left to right). For example, if reels 1, 3 and 4 have the expanded symbol then the 3-of-a-kind award is paid out on all 10-win lines.

Note: All reel wins are paid as normal during initial Free Spin spins, including Wilds and doubling Wilds. When symbols are expanded, only that symbol is used for payouts. The remaining symbols on the reels are ignored.

Note: When the Pink Orb scatter is expanded, it is paid as a win line payout, not as a scatter. For example, if 3 Pink Orb scatters land, the player will get the scatter payout plus 15 free spins. The symbol will then expand and pay the scatter payout and free spins for all 10-win lines. In total, the player will receive 11 x scatter payout plus 165 free spins (11 x 15).

Free Spins can re-trigger, awarding an extra 10 Free Spins for each re-trigger. The selected symbol remains the same.

### **Triggering the other bonus round**

It is possible to trigger the other bonus round and vice versa whilst in an existing bonus round multiple times.

When this occurs, the following happens:

- The Book Free Spins bonus round is always played out first (including any re-triggers). Any remaining Pink Orb Free Spins with x3 Multiplier are stored in the counter above the reels and are resumed once the Book Free Spins bonus round has completed.
- Any Book Free Spins triggered from inside the Pink Orb Free Spins will be played at x3 Multiplier. If multiple Book Free Spins bonus rounds are re-triggered, the Multiplier remains at x3 for all of them.
- Any Pink Orb Free Spins won in the Book Free Spins bonus round are stored in a counter above the reels. These are played out after the Book Free Spins bonus round has completed.
- If the initial bonus round is a Book Free Spins bonus round and a Pink Orb Free Spins bonus round is triggered from it, the Book Free Spins bonus round will complete first at x1 Multiplier. The x3 Multiplier only kicks in at the start of the Pink Orb Free Spins bonus round. Should the Book Free Spins bonus then be triggered again, it will then be paid at x3 (as detailed above).
- Free Spins (10 or 15) when re-triggered are never multiplied by x3. Only cash prizes within the bonus rounds are multiplied.

### **Maximum Payout**

If the maximum payout is reached (x20,000 x Total Bet), all remaining Free Spins are cancelled and the maximum prize is awarded to the player.

## Bonus Buy

---

The Bonus Buy allows the player to buy either of the two Free Spins bonus rounds at a cost of 100 x Total Bet (£1 stake would cost £100). This feature is not available in all jurisdictions.

# General Information

---

## Random Game Play

This game is totally random; the odds of getting any particular outcome are always the same and are not based on any other factors or prior outcomes e.g. stake value, previous wins or losses, time of day, account balance, etc.

## Return to Player Percentage

The expected return to player (RTP) reflects the theoretical return over a large number of plays. The RTP is expressed as the percentage returned to players in winnings of the total amount staked, e.g. if £1,000,000 was staked and £960,000 was returned, the RTP of the game for that period of play would be 96%.

The actual RTP during a playing session can vary widely, in either direction, from the theoretical return.
