## YOUR SMART LOBBY

Our Smart Lobby offers a great addition of new, advanced, and versatile features - experience Evolution Live Casino with our First Person titles, all in one space.

Players are presented with their favourite and recommended content provided by our powerful Artificial Intelligence (AI) engine, complete with statistic-filled game overviews for superior functionality and easy accessibility.

Smart Lobby allows customised branding and the possibility to sort tables according to priorities. All of which provides excellent control over your brand visibility and messaging.

### KEY BENEFITS

- Quick and clever navigation
- Personalised content and explanatory game previews
- Unique search engine and increased lobby performance
- Modern, responsive design on any device.

### RECOMMENDATION ENGINE

The recommendation engine, powered by powerful Artificial Intelligence (AI), makes the content in the Smart Lobby personalised for players. Simultaneously it increases Lobby performance by stimulating the conversion to join a table and playtime in-game, as well as wager and player retention.

### SMART SEARCH

Our improved search allows searching for games by broad queries. Search for keywords like 'dice' or 'Spanish' to find all the games corresponding to these phrases.

### GAMES CATEGORIES

All games are categorised into groups in the 'Games' section according to the most popular games or a particular game type (e.g., Roulette, Blackjack). This makes it easy for players to see and select games according to their personal preferences.

## PERSONALISATION

### 'FOR YOU' SPACE

This space keeps all your personal and favourite games in one place! Find your selected favourite games, browse recently played and recommended for you games, as well as games available in Reward Games mode.

The 'For You' space also lets you explore Evolution's hot and new games, so you're always on top of the latest Live content. You can also familiarise yourself with our dedicated games and native dealer tables here.

### HERO

The Hero banner promotes some of the newest and biggest games available. Here you'll find bet limits and information about the number of active players, and you can enter the game by clicking the 'Play' button in the user interface.

### GAMES PREVIEW

Games Preview is a great way to easily browse numerous games and activates with a click on mobile or a hover on desktop. The Preview shows a live video stream and provides more details about the game, for instance – bet limits, the last winning numbers, as well as a short description of the game and suggested similar games. Additionally, you can start playing it straight away or add the game to your 'Favourites' list.

## TABLE FEATURES

Smart Lobby offers clever ways of informing players about the current status of tables. Simply by browsing the game overviews, you can spot the tables that are available to play right away. Available tables will always be displayed at the top of the game list, so you can start exploring them. For player convenience, we offer easy-to-view table statistics and numerous informative visualisations, to make the decision process as easy and fast as possible.

### NORMAL

An unlimited amount of players can enjoy many tables; therefore you can participate in the game whenever you wish. Simply click and enjoy!

### RECENTLY PLAYED (MOBILE)

Recently played games will be marked with a 'Play' button, if using a mobile device. This allows you to resume playing the same game as before quickly.

### PRIVATE (FREE)

Salon Privé tables provide an exclusive online gaming experience by allowing only one player to enter the table. Our Salon Privé tables are exclusive, and only one player can play at a time. If no other player has joined the Salon Privé table, you will be allowed to enter and play.

## TABLE FEATURES

### PRIVATE (OCCUPIED)

Since only one player is permitted per Salon Privé table, a locked sign will be displayed if the table is occupied by another player.

Such tables are completely private and no other players may join or even watch.

### CLOSED

When a table has working hours, it will be left in the Smart Lobby but displayed as 'Closed' if the table is closed. The player's local time is used to inform about opening hours.

If the table is under maintenance, it will be hidden.

### LOCALISED TABLES

We offer a wide selection of native-speaking dealer tables.

To easily distinguish native-speaking tables, they are marked with the corresponding flag, right next to the game name.

All native-speaking tables can also be found under 'Native Dealer' category in the 'For You' space or by using the filter 'Native Dealer' in any game type category.

## TABLE FEATURES

### BLACKJACK DIRECT SEATING

For tables where only a limited number of players are allowed, free seats are highlighted in light-grey colour for an easier seat availability overview. Join the table with a single click.

Bet behind allows a virtually unlimited number of players to bet behind the main seven players seated.

### JACKPOT

To always keep track of the Progressive Jackpot prize value – it is displayed as part of the game preview.

Join the table when you feel that the Jackpot prize is just right for you.

## LOBBY FEATURES

### TABLE INFORMATION AND STATISTICS

Game Preview allows you to get a quick overview of the last game round results, bonus rounds played, and multipliers of winning numbers. Additionally, you can view the minimum bet requirement and total number of players participating.

We also display real-time thumbnails from game stream, whilst having the ability to filter for any un-fit images (when dealer is not visible).

### ROADS

For games that show statistics with roads – these can be viewed without even entering the table, letting you see the trends in advance.

Compare the roads on numerous tables and pick the table that is best suited for you.

### LABELED GAMES

Labels are for example used to mark a table as a new game. To quickly find newly introduced games, a label marked 'New' will appear at the top of the Game Preview. This label will be hidden after the players have joined the table for the first time.

It is possible to choose from a variety of labels, as well as introduce custom ones.

## IN-GAME PANEL

Smart Lobby offers an advanced In-Game Panel, which is displayed on the bottom right corner of the screen.

You can choose to enter Smart Lobby during your gameplay and keep your seat at the table. This option allows you to browse Smart Lobby and keep an eye on your currently running game simultaneously, with the option to get back to the game instantly by clicking on the live game preview.

## FILTER

Each 'Games' category further offers the possibility to filter each category by different purposes and keywords, such as 'new', 'low stakes', 'auto', etc.

See exactly the games you are interested in, in the easiest and most compact way possible.

## TABLE ORDER

The tables are sorted according to the operator's preferences. The table order can be customised for each market to push the right game to the right player.

By default, full Blackjack tables are moved to the bottom and dedicated tables are available at the top.

## REWARD GAMES MODE

The game overview also informs you if a game is available in Reward Games Mode.

Reward Game allows you to play certain games without money. In situations where you have received a voucher, you are entitled to spend this voucher in the Reward Games Mode.

See the selection of suggested Reward Games in the 'For You' space or by using the Reward Games filter in any game category.

Reward Games Mode can only be used if it's supported by the game.

## FAVOURITES

Players can save their favourite games and mark them as 'Favourites' for fast and easy access to their most beloved titles.

Games can be marked as 'Favourites' directly from the game preview while browsing. Your selected favourite games can be viewed in the 'For You' space and you can easily filter them in the 'Games' categories.

## FIRST PERSON GAMES

The Smart Lobby features both live casino and First Person games which allows you to switch between both environments seamlessly, whilst keeping the same functionality.

The integrated lobby improves accessibility for players and provides a door to connect both worlds more organically.

All of our First Person games previews hold beautiful images from the environment to give the players an idea of how the game studio looks.

First Person game previews display the game name and the minimum bet limit.

First Person games won't be visible for live casino players. In order to access First Person games within the Smart Lobby, players are required to enter our lobby through a First Person game.

## BRANDING

Our Smart Lobby supports the operator's logo placement in our environment for a more tailored lobby experience. The logo is located in the top left corner of the header for desktop devices and in the centre of the footer for tablet and mobile phones.

Brand your Smart Lobby the way you see it fit. Have Smart Lobby made according to your brand personality and choose to have customised header label and table tile backdrops, as well as your logo.
