BLENDING UP BIG WINS

Summer has arrived! Come and join Relax for a stroll down to your local beach club and soak up some of that vitamin sea!

Set on a 5x3 reel area, Blender Blitz is as cool as it is fresh. By simply forming winning combinations in the game, it shall reward you by removing all low and mid-tier pays - setting you with only high paying, money making symbols. If that wasn't enough, once only high pays are left on the reels, you will be awarded a super spin — a guaranteed winning spin with a multiplier of up to 500x!

FEATURES

FREE SPINS

When 15 low or mid-tier symbols are destroyed, free spins are awarded. Low and mid-tier symbols removed during free spins remain eliminated throughout the entire free spins round.

Symbol removal progress is transferred from the main game to free spins. When all low and mid-tier symbols have been removed, 1 super spin is awarded! The super spin awards a random multiplier between 10 - 500x to a spin that guarantees a win.

Free Spins continue until a super spin is awarded or all lives have been lost, a life is lost when a non winning spin occurs. An extra life symbol is present on reel 5 during Free Spins, awarding 1 - 3 extra lives as shown on the number on the symbol.

ELIMINATOR

The eliminator symbol is present on reel 5 in the main game and has two benefits: it removes one of the low or mid-tier symbols from the reels entirely for the remainder of the game round; secondly, it destroys all symbols on the game area, contributing towards their removal from the reels and the free spin trigger.

SYMBOL REMOVAL

Remove all low and mid-tier paying symbols from the reels and be left with only high paying symbols on the reels!

When 10 of each symbol is won on over the course of a round, it is removed from the reels entirely. Meters are present by the reels to show how close symbols are to being removed.
