About Red Tiger Jackpots

Like all Red Tiger slots, Good Luck Clusterbuster™ may be taken with or without Red Tiger jackpots. If a jackpot version of the base game is taken, it must be paired with a jackpot contribution to get the final overall RTP of the game. For example pairing the with-jackpot base game certified at 94.70% RTP and adding a 1% jackpot contribution gives an overall RTP of 95.70%. The RTP of the jackpot contribution itself is 100%.

FEATURES IN THE GAME

CHAIN REACTION

When at least 5 identical symbols land on the reels and rows adjacent to each other, your cluster match will explode into wins. When the rewards are in the bag, the symbols disappear, and thanks to the chain reaction, new symbols fall into empty spaces. One spin comes with the possibility of several prizes.

CLUSTERBUSTER™

In the middle of the reels, a huge Pot of Gold is cast in stone on an area of 3x3. When you manage to match winning clusters immediately next to the stone pot, it starts breaking off pieces from the pot. If you manage to open all 9 positions, the shining gold will reward you with 5 Free Spins!

THEME & SYMBOLS DESIGN

Colourful and fabulous mushrooms serve as precious food for fun for leprechauns as the low-paying symbols. The high-paying symbols are the most essential items you will need to graduate as the chief leprechaun. Cast your eyes on a lucky horseshoe, a magic smoking pipe, a mug of honey coloured beer and a lucky clover-minted golden coin. The Wild leprechauns sometimes relax, sometimes jive. Their eyes are cast on the stone-covered Pot of Gold—the precious holder of the Free Spins entrance.
