## INTRODUCTION

Experience the gold rush at its finest! Our new slot game, Gold Mine Stacks, is here!

Gold Mine Stacks is a very high volatility video slot with 5x3 reels and 20 paylines, respin feature and multi-level bonus feature with instant wins.

Landing a full Wild symbols stack will grant a Wild Stacks respin; repeat it to fill the whole screen with Wild symbols for a mega payout.

Landing 3 to 5 Bonus symbols starts the 5 x 3 bonus game. You can increase your chances by activating the Bonus Bet.

Start with 3 chances to win on individually spinning fields - each time a prize lands, chances are restored! Randomizer feature will additionally set a multiplier to one type of the prizes.

Keep winning to progress deeper into the mine - when a column of 3 prizes forms, the elevator will take you to the next Level, with bigger payouts. At the bottom of the mine, Level 4, a global multiplier appears. Completing a column will increase it, and all positions can be filled with prizes. Collect them all for maximum win, up to 50,000x your bet!

## GAME RULES

### GENERAL

This game includes 20 fixed paylines.

A payline is a pattern of adjacent symbol positions that runs in a line across the reels.

A win is awarded when matching symbols land adjacent to each other on a payline.

Payline wins run from left to right, starting from the first slot reel.

#### Payout Rules

Payline win payouts are based on the initial bet placed.

The payout value is based on the winning combination formed.

If multiple winning combinations land on a single payline, only the highest win is awarded.

The total payout is the sum of all payline wins resulting from a spin.

Only the highest winning combination is awarded per symbol combination.

The win up to value displayed is rounded down, and is approximately the highest possible win achievable on a single spin.

The Paytable displays the payout for each symbol combination based on the current bet.

Wins are multiplied by the base bet (excluding the Bonus Bet cost).

### WILD SYMBOLS

Wild symbols can substitute for all symbols except Bonus symbols.

This symbol appears in the base game only.

Wild symbols can create their own winning combination when landing in a payline combination.

### WILD STACKS RESPINS

A full stack of Wild symbols triggers this feature.

Full stacks of Wild symbols are sticky and free respins are awarded as long as new full stacks land on any of the reels.

Filling all the reels and rows with the Wild symbols awards the payout according to the paytable and ends the feature.

## GAME RULES

### GOLD MINE STACKS BONUS

3, 4 or 5 Bonus symbols anywhere on the reels trigger this feature.

Bonus symbols from the base game are transferred into the Bonus game.

At the beginning of the Gold Mine Stacks Bonus, the Randomizer feature boosts one of the Bonus prizes by up to 50x.

The possible prize multipliers are: 2x, 3x, 5x, 7x, 10x, 25x and 50x.

The Bonus game consists of 4 levels and always starts on level 1.

Each level offers 8 possible Bonus prizes which can land on the reels.

The Bonus prizes are the multipliers of the base bet.

Base game and level 1 prizes: 1x, 2x, 3x, 5x, 7x, 10x, 25x, 50x.

Level 2 prizes: 2x, 4x, 6x, 10x, 14x, 20x, 50x, 100x.

Level 3 prizes: 3x, 6x, 9x, 15x, 21x, 30x, 75x, 150x.

Level 4 prizes: 5x, 10x, 15x, 25x, 35x, 50x, 125x, 250x.

The Bonus game starts with 3 lives.

Landing no Bonus symbol during a spin removes 1 life.

Landing at least 1 Bonus symbol during a spin resets the number of lives back to 3.

All the prizes from the Bonus symbols collected during the Bonus game add up to produce the total win.

Winnings are automatically collected at the end of the Bonus game.

Filling any of the reels with Bonus symbols on levels 1-3, progresses the Bonus to the next level.

Levels 2-4 always start with an empty board.

Filling at least 1 reel with Bonus symbols on level 4 awards total win multipliers.

When the Bonus ends, all the wins from all the levels are multiplied by that multiplier.

1 reel = 2x multiplier, 2 reels = 3x multiplier, 3 reels = 5x multiplier, 4 reels = 7x multiplier, 5 reels = 10x multiplier.

Filling the whole level 4 board with Bonus symbols ends the Bonus game.

This feature can trigger in the base game only.

Total win from the Bonus game is capped at 50 000x the base bet.

When the win reaches or exceeds that amount, the Bonus ends with the maximum payout awarded.

## GAME RULES
