Euro2020 and Copa América are almost here – so to help you and your players make the most of this very special football season, we have a range of special updates and enhancements across our studios.

LET'S CELEBRATE IN STYLE!

To add to the party atmosphere together as millions of viewers around the globe enjoy the football, we will be decorating our Live Football Roulette studio and our Ruleta Casiopea studio with flags and other football paraphernalia throughout the international season. See if you can spot the flag of your favourite country!

STATSCORE UPDATE

Playtech Live players will already be familiar with Statscore’s SportsCentre, with big screen live football visualisations, league tables, player stats and more from the best leagues in the world, already a key feature of our Live Football Roulette game. Now, for the international football season, we’re extending our coverage.

During this period, Live Football Roulette in Latvia will feature a special EURO 2020/ Copa América SportsCentre and a big screen will be added to the Ruleta Casiopea in Spain – meaning your players won’t need to miss out on any important match updates while enjoying the Roulette tables.

Statscore’s SportsCentre is a perfect solution for studios to fill the main casino games background with high quality sports content and can help increase the general satisfaction with and competitiveness of your product. This feature is customisable to match your brand, including your logo and preferred colours. If you are interested in this product, please do not hesitate to contact your CRM for assistance.
