Game Rules

General

The base game includes a gameboard consisting of 4 reels, with 7 symbol rows each and 127 active paylines.

3 or more matching symbols on a payline, on adjacent reels beginning with the leftmost reel, represent a winning combination. Only the highest win per payline will be paid.

Payline wins are multiplied by the bet multiplier of the winning game.

Your bet multiplier is equal to the number of credits played divided by 0.20. For example, 0.40 credits bet per spin = 0.40 / 0.20 = a bet multiplier of 2.

All payout tables display the number of credits that are won for each combination for the current bet multiplier.

Winning combinations are highlighted on the reels. If you do not have a winning combination, the game is over and you may play again.

Malfunction voids all pays and plays.

Regular Symbols

Matching symbols must be next to each other on a payline.

≡ PAYTABLE

Payouts depend on your bet multiplier per spin.

2x Wild Multiplier Symbol

This symbol is a 2x wild multiplier symbol and substitutes for all paying symbols except the 5x wild multiplier.

Each 2x wild multiplier symbol included in a winning combination multiplies the pay for that win by 2.

This symbol does not substitute for scatter symbols.

This symbol also creates its own combination.

5x Wild Multiplier Symbol

This symbol is a 5x wild multiplier symbol and substitutes for all paying symbols.

Each 5x wild multiplier symbol included in a winning combination multiplies the pay for that win by 5.

This symbol does not substitute for scatter symbols.

This symbol only appears in the 777 Rainbow Respins™ Bonus.

This symbol also creates its own combination.

RESPIN INSANITY™ Feature

RESPIN INSANITY™

Any winning spin triggers the RESPIN INSANITY™ Feature.

Once triggered, all symbol positions containing winning symbols form a respin area. All symbols in the respin area except 2x wild multipliers are respun.

If a respin lands a symbol that matches one or more positions outside of the respin area, those positions are added to the respin area, and the respin area is respun again.

After each respin, 2x wild multiplier symbols may be awarded to the respin area, and the gameboard is evaluated for additional wins.

If a respin does not result in any symbol positions being added to the respin area then the feature is complete.

777 Rainbow Respins™

≡ PAYTABLE

If a respin does not result in any symbol positions being added to the respin area then the feature is complete.

The feature bet multiplier is determined by the bet multiplier of the feature-triggering game.

Feature wins are added to regular wins.

777 Rainbow Respins™ Bonus

3 Scatter symbols trigger the 777 Rainbow Respins™ Bonus.

Triggering scatter symbols transform to either 2x or 5x wild multiplier symbols which remain for the duration of the bonus spins.

4 bonus spins are awarded. Any winning spin triggers the RESPIN INSANITY™ Feature.

All awarded 2x and 5x wild multiplier symbols remain locked for the duration of the bonus.

The 777 Rainbow Respins™ Bonus cannot be retriggered.

The bonus spins bet multiplier is determined by the bet multiplier of the bonus-triggering game.

After the final bonus spin concludes the 777 Rainbow Respins™ Bonus is complete.

Bonus wins are added to regular wins.

The stated win up to values are achieved from the cumulative winnings of an entire bonus spins session.
