

BOOK OF GAMES

Game Type: Video Slot Game
Return to Player: 95.7%

The adventure begins with the latest enthralling new slot game, Book of Games. Like Indiana Jones, travel into the heart of Egypt and uncover wonderful treasures and surprises! Enjoy the breathtaking beauty of this noble ancient culture.

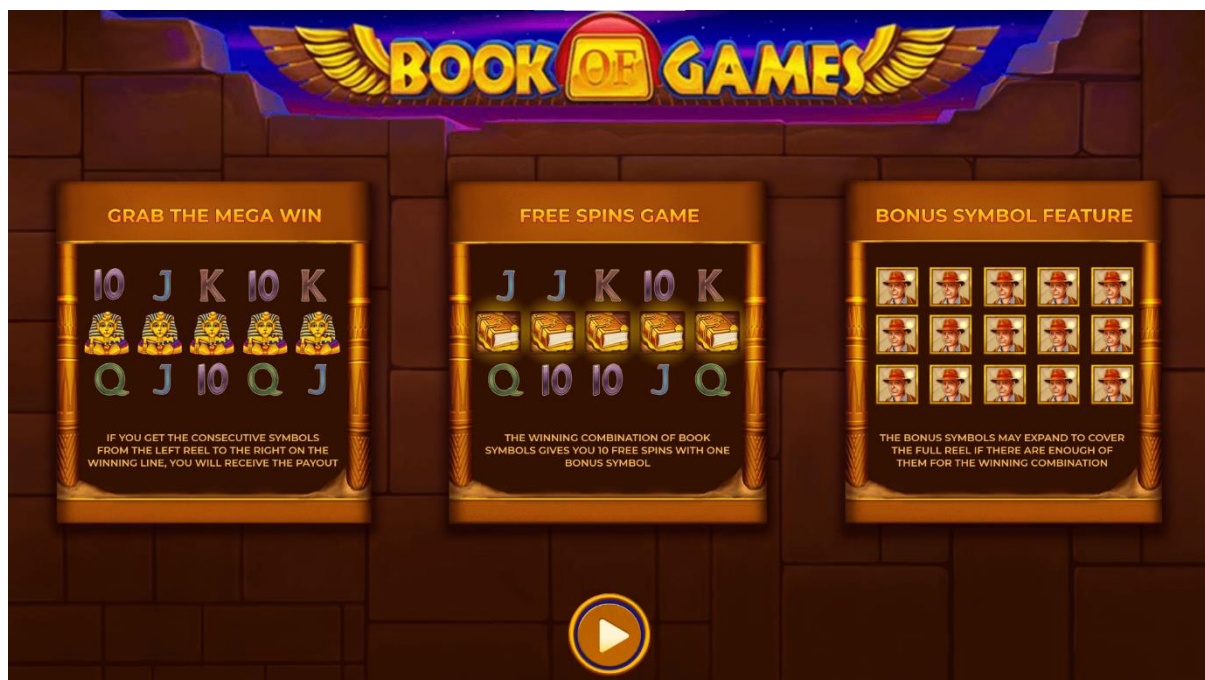

In Book of Games, the player spins the reels accompanied by subtle ancient music and drums in the background. The vivid and colourful symbols represent characteristic features such as tombs, explorers, the goddess Isis and golden scarabs.

This is an upbeat, lively 5 reels by 3 rows classic slot game with Free Spins and bonus games. It has a variable RTP of 95.7% and a maximum win of x1000 the bet. The ambience inside the half-lit tomb of the great pharaoh grips the player as the reels spin. The bright colours of the symbols merging gracefully with the earthy tones of the backdrop.

The rewards flow in from the combinations of symbols, and if there's a group of 3 or more Scatter symbols, it signifies a Free Spins bonus game, where the player receives 10 Free Spins. Throughout Free Spins, the Bonus symbols could enlarge to fill the entire display area of the reels if there are enough symbols for the winning combination. Blank spaces between reels with the expanded Bonus symbols do not contribute to the winning combination. Bonus symbols are randomly selected at the beginning of their Free Spins.

The ancient book symbol is the most versatile. It not only illustrates Wild but also Scatter too. This vastly improves the player's opportunity for a big win. So does the gamble feature, which is optional with each win. Guessing the right colour of a facedown playing card will double a player's winnings. A wrong guess, however, will remove the initial win and their stake.

Indulge your spirit of adventure with this inspiring game!

ADDITIONAL INFORMATION

Randomisation

Random Number Generator (RNG)

The Random Number Generator and its implementation has been tested and approved/certified for randomness according to prevailing industry standards by an accredited, independent, 3rd party test facility.

Malfunction Management

If a player attempts to access a game using an invalidated session, (for example, due to inactivity or system restart) an error message is displayed in the game. The player can then log on again and resume game play. The game state is always stored so the player can resume game play exactly where he or she left off.

In case of an HTTP error, network timeout or server error a "technical error" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game at a time when the game becomes available.

If a session times out, a "session timeout" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game.

Connection problems

LOBBY

In case of an "out of money" event, an "out of money" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game.

Insuffience funds

CLOSE

Information regarding session timeouts and malfunctions is provided to the player via the game rules. Specifically, the player is informed that "In the event of malfunction of the gaming hardware/software, all affected game bets and payouts are rendered void and all affected bets refunded."
