

Wield the magical power of the legendary sword, Excalibur, in this Towering Pays™ Excalibur slot game.

The next instalment of Games Lab's innovative Towering Pays™ system brings players a powerful new Quest Bet option, allowing them to trigger a Hold & Spin and collect shields baring big prizes.

A feature wheel is used to award one of 6 different features, including the Hold & Spin if the Quest Bet is enabled.

FEATURES

Excalibur may appear on reels 1, 2, and 3 in normal play.

Play starts in a 5x3 and progresses to a 5x8 reel configuration.

Excalibur landing on reels 1, 2 and 3 triggers a row expansion and lines increase by 10.

Row expansion persists until a Feature is triggered.

Excalibur all change to the same random symbol before pays are awarded.

QUEST BET (OPTIONAL)

A Quest Bet is an optional ante bet which enables a Hold & Spin feature.

FEATURE WHEEL

A Feature Wheel is awarded when the Feature Wheel symbol appears on reels 1, 3, and 5.

Avalon Feature Wheel is triggered when Excalibur appears on each of reels 1, 2 and 3 in 5x8 in normal play.

All features wins have a chance to award a prize multiplier up to x10.

During Camelot Spins, Excalibur may appear on all reels leading to massive wins!

WIN SPINS

During Win Spins, Excalibur covers reels 1, 2 and 3 in the current grid.

Excalibur Magic then activates to award a guaranteed win per spin.

HOLD & SPIN

6 or more Shield Symbols appearing triggers the Hold and Spin feature.

Hold and Spin can be triggered within Feature Wheel or during Excalibur Magic. A 1000x bet Bonus is awarded if all positions are filled.

PAYTABLE

King Arthur wild appears on reels 2, 3 and 4 and substitutes for all other symbols except Towers.

All symbols pay Left to Right only.
