Cash Quest
Game ID: 1099/1100/1101/1111

GAME DESCRIPTION

Cash Quest is a magnificent adventure game set in a magical forest with swords, skulls and great treasures as symbols. It features our latest reel modifier called BOOSTBAR™, which is an extra feature bar on top of the reels that can award you symbols, multipliers and wilds.

The game is cluster-win based, has a 6x6 grid and a max win of 7,500 times your bet.

FEATURES

BOOSTBAR™

Introducing our latest feature BOOSTBAR™. An exciting feature bar that consists of four extra positions located above the reels. Every time that a BOOSTBAR™ activator symbol lands on the grid, the BOOSTBAR™ is activated and 4 special feature symbols will land on the bar. The symbols can be either blocking stones, a magic lantern that clears the grid, paying symbols, symbol multipliers, global multipliers or wilds. If one or more stones land, those positions are locked.

Once the clear grid symbol, the paying symbols or wilds jump out of the BOOSTBAR™, their positions will be filled with new symbols. This will continue until all positions have been locked, either by multipliers or stone symbols.

BOOSTBAR™ Feature overview:

Blocking stones

This symbol blocks the position it lands on until the next round.

Magic lantern

This symbol will jump out of the bar and land on the grid. Once it lands it will clear the grid and a new symbol drop will take place.

Symbols with splitter functionality

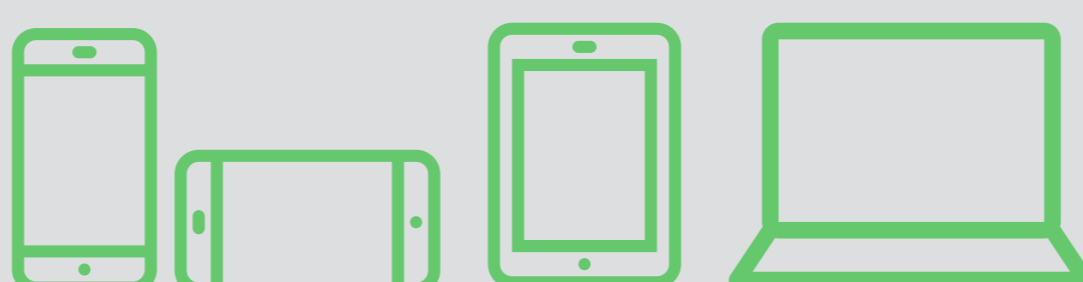

Can be any of the paying symbols, they will also have an amount in the top right corner. The amount tells you how many symbols will jump out of the bar and land on a random position on the grid. The amounts can be 5, 10, 15, 20, 25 and 30 symbols.

Wilds

Wild symbols will jump out of the bar and land on a random position on the grid. They can have an amount in the top right corner- the amount tells you how many symbols will jump out. The amounts can be 5, 10, 15, 20, 25 and 30 Wilds.

FEATURES

BOOSTBAR™ CONTINUED Symbol multipliers

Can be any of the paying symbols. Each symbol has a multiplier displayed in the top right corner. The multiplier amount will be multiplied by all wins on that symbol during the round. If there are two or more with the same symbol the multiplier values will first be added and then multiplied by the wins.

The symbol multiplier amounts can be 2x, 3x, 4x, 5x, 10x, 25x or 30x.

Global multipliers

These multipliers are global, which means that all wins during the round will be multiplied by the value. If you land several global multipliers and/or symbol multipliers, all applicable multiplier values will first be added and then multiplied by the wins.

The global multiplier amounts can be 2x, 3x, 4x, 5x, 10x, 25x, 50x or 100x.

FREE SPINS

Land three or more free spin symbols to trigger this feature in which you will get 10 free spins. This feature has more BOOSTBAR™ activator symbols compared to the main game.
