ELECTRIFYING BACCARAT GAME

Lightning Baccarat is an exciting Live Baccarat game that combines our world-class Live Baccarat with a chance for the players to win big multiplied payouts on their winning hand.

In Lightning Baccarat, every game round features 1–5 randomly generated Lightning Cards from a virtual 52-card deck, plus randomly generated payout multipliers. If the player wins on a hand with one or more matching Lightning Cards, the winnings are multiplied accordingly (from 2x to 8x). With three matching lucky cards the total winnings could be multiplied by as much as 8x8x8 (512x)! Even more exciting, a winning bet on a Tie with six matching Lightning Cards can result in a multiplier of 262,144x.

As with all our Lightning games, Lightning Baccarat is presented in a stunning black and gold Art Deco environment with an electrifying user interface, adding an entirely new dimension to the traditional Baccarat game.

KEY BENEFITS

> Unique Baccarat variant
> RNG Lightning Cards and multipliers add excitement to each round
> Chance to win greatly multiplied winnings up to 262,144x
> Electrifying user interface with lightning flashes and sound effects.

RETURN TO PLAYER (OPTIMAL)
98.76%

ALSO AVAILABLE IN FIRST PERSON

HOW TO PLAY

Lightning Baccarat combines our world-class Live Baccarat with a chance for the players to win big multiplied payouts on their winning hand.

Prior to each deal, the player can wager on whether the player's hand or the banker's hand will win by being closest to 9. The player also has the option to wager on a Tie (i.e. both the Banker's and Player's hands will total the same).

Players will see two additional betting spots – Player Pair and Banker Pair. These allow the player to bet on either the Player's or the Banker's first two cards being a Pair. No further side bets are available.

A 20% Lightning Fee is added to each player's total bet and this is visible in the user interface.

LIGHTNING ROUND

After the betting time period has expired, the Lightning Round starts.

Each Lightning Round features 1–5 randomly generated Lightning Cards from a virtual 52-card deck, plus randomly generated payout multipliers for each Lightning Card.

The Lightning Cards with multipliers are shown in the user interface before the dealing of the cards in the main Baccarat game.

CARD DEALING

After the Lightning Round, the Player and Banker are dealt two or three cards depending on the value of their hands according to standard Baccarat rules.

During dealing, Lightning Cards are highlighted in the user interface if a matching card has been dealt, to make the player aware that there is a chance for multiplied winnings.

GAME OUTCOME

If the player has placed a bet on a winning hand, the payout will be according to the payout table.

If the player's winning hand contains one matching Lightning Card the winnings will be multiplied accordingly (i.e. 2x, 3x, 4x, 5x or 8x).

If the player has more than one matching Lightning Card in a winning hand, the winnings are multiplied again. For example, with three matching Lightning Cards the total winnings could be multiplied by as much as 8x8x8 (512x)! A winning bet on a Tie with six matching Lightning Cards can result in a multiplier of 262,144x. All winnings are capped to €500,000 plus bet.

The player must have the matching Lightning Card/s in their winning hand to receive a multiplied payout.

PLAYER PAIR

Pays if the first two cards dealt to the Player constitute a pair.

BANKER PAIR

Pays if the first two cards dealt to the Banker constitute a pair.

LIVE BETTING STATISTICS

Players can see the total wager placed on a particular bet spot, as well as the number of players who placed bets on the bet spot. The percentages of all bets placed on the Banker, the Player or on a Tie are also shown, and everything is updated in real time.

SCORECARDS (ROADS)

Baccarat streaks and trends for either the Player or the Banker are recorded in various scorecards, or 'roads'. These pictorial representations of past round results and other statistics related to the current shoe may help players to predict the results of future rounds. Players can choose light or dark background for the scorecards in Settings.

The Bead Road and Big Road display the results of each past round, while the Big Eye Road, Small Road and Cockroach Road display patterns derived from the Big Road.

SHOE STATISTICS

Statistics for the current shoe are displayed above the Big Road and include number of completed rounds; number of Player wins; number of Banker wins; number of Tie rounds; number of Player pair wins; number of Banker pair wins.

Roads and shoe statistics are always cleared when a new shoe is introduced.

FIRST PERSON

First Person Lightning Baccarat offers a superior 3D animated environment, rich with beautiful animation that delivers a unique gaming experience that brings the player as close to the live dealer version of Lightning Baccarat as possible.

Like all of our Lightning games, the First Person version features electrifying lightning strikes and random multipliersy. With the same thrill and functionality as its live counterpart, the game offers a distinct advantage in that it gives players control of their gaming experience – like dealing free hands to build trends and reset the shoe to clear all history and statistics.

After you've placed your bet the standard Lightning fee of 20% is taken. Once the 'Deal' button is clicked, the Lightning round begins.

Between one and five cards with random multipliers appear in the user interface. If the card on the table matches a Lightning Card it becomes animated, and the corresponding multiplier is indicated on the bet spot. The player must have the matching Lightning card/s in their winning hand to receive the multiplied payout.

First Person Lightning Baccarat also features our distinctive 'GO LIVE' button. where players are taken through an in-game portal to the Live Lightning Baccarat table, to experience the immersive thrill of a live game.
