

PROPERTY TYCOON

BUILD YOUR FORTUNE AND WATCH THE MARKET TURN.

Property Tycoon brings a fast-paced property-market twist to the live game show experience. Predict where a virtual 58-segment wheel will stop by backing one (or all) of eight Rent Collector colours, predicting a Market Crash or betting on one of three Bonus types: Lil' Blocks, Big Towers or Epic Heights.

Every spin brings a new choice. Rent Collector bets offer instant payouts when they hit, while Market Crash comes with a randomly assigned 4x, 7x or 10x return. Random wheel multipliers can boost the winning result, while landing on one of six Bonus segments opens the door to tower-building adventures with Mr. Monopoly.

In the Bonus, a crane stacks blocks carrying additive and multiplicative multipliers as you watch the tower and its accumulated value grow. Every successful placement creates more multiplier potential, with special Boosters adding unexpected twists along the way.
