

Release Date:09/06/2022

Derby Wheel

WHAT'S THE STORY?

Lights. Camera... Action!

It's the gameshow of the year!

Take part in an epic light show as people gather from all over the world to attend the Derby Wheel.

IN-GAME ARTWORK

Experience the Derby Wheel in 3D, these dynamic effects push the boundaries of the visual experience.

Traditional fruit machine symbols have been given a neon glow so they leap off the reels!

FEATURES

The aim is to get three Wheel symbols on the reels to take you through to the Bonus Wheel which will show various Multipliers plus the Horse Racing Bonus Feature.

Should you land on the Horse Racing icon, the game will then take you through to the Bonus Feature where a 3D horse race is about to commence, and players have four options to pick from:

'No Bet' where players can skip the race and gain a x40 Multiplier, 'Win' where the player can pick which they think will be the winning horse (each horse has fixed odds) to win up to x800 their bet. 'Exacta' lets the player choose who they think will come first and second, in order, to win x1800 their bet. And finally, 'Trifecta', where the player can choose who they think will come first, second and third, in order, to win x2800 times their bet.

Visually stunning, Derby Wheel has the flash of a game show with the 3D virtual horse race which features mechanical-style horses where the level of detail is quite extraordinary.
