### BUSINESS REASONS

Take our original title, Rocky's Gold and revamp it into a more modern day title. We wanted to create an Ultraways game with lot's of activity on the base game, something we haven't done as yet. The idea being that adding wilds, splits and mystery symbols to the base game the player can really see what Ultraways is all about without needing to play the Free Spins Bonus which is where, traditionally, we have made all these symbols available.

#### Focus on Player Psychology in Game Design/Mechanics:

In Rocky's Ultraways we wanted a game that had big large wins for the determined player to chase but also regular bonuses to reward casual players. We decided to take the successful math model from God of Fire and supplement it with these additional bonuses.

#### What makes this game unique?

We have taken a past game, our first in fact, revamped it and paired it with a successful maths model.
