BUSINESS REASONS

Create a new collection mechanic that rewards players who keep playing by giving them a much-enhanced bonus experience by collecting more spins and more multipliers as well as more picks in the Last Call Bonus.

ART DIRECTION

We wanted to bring a theme rarely seen within the slots community and embraced the idea of postcard style vintage travel. The theme allowed us to instantly create intrigue as to where the player would go on their slot adventure, as well as bring a more calm and playful feel to the game throughout.

The symbols are in keeping with the 30's aviation theme, with the different characters of the captain, steward and various holiday goers as well as suitcases, propellers and tickets. The dials and gauges around the border also further emphasise the theme.

The concept of postcard travel is also enhanced through the intro to free spins and the Last Call bonus as various famous landmarks can be seen. The background of the reels also lends itself to the more colourful style of 30's early aviation to reinforce the more playful aspect of the game.

SOUND DIRECTION

With the background music, we wanted to reflect the more relaxed aspect of travel, reinforcing the idea of quiet luxury and relaxation. This in conjunction with the light ringing of the reels helps to bring in the more 30's vintage aspects in a more subtle way. The music ramps up during the bonuses of the game to heighten tension, but in keeping with the calm style of the base game.
