

Cave of Xmas™

Game description

It was the hunt before Christmas...while snowmen slumber, Santa Claus sips his cocoa by the fireplace, and the elves are fast asleep, the BF Goblin is busy finding the location for his next tunnel. If his calculations are correct, gold lies just beneath that hill of snow! Armed with his trusty dynamite, some Wild and Scatter symbols, a nifty new BUY feature, and the spirit of Christmas, there's only one more thing he needs to find that spoils beneath the icy soil - you! Join Goblin in a special slot for the season, Cave of Xmas!

Marketing description

If you loved previous slots Cave of Gold and Cave of Fortune, Cave of Xmas is bringing back the action, this time with a holiday twist! Featuring the five-reel, three-row and 30-fixed-payline setup of games past, all sorts of fantastic features are buried in this slot!

Starting off, there's the Dynamite symbol. Any single, double or triple Dynamite symbol on a reel adds Dynamite symbols to the Nitro Counter directly above the reel it appears on, up to a maximum of three symbols.

Once that counter is full, the Persistent Wild feature is unleashed, transforming the reel into a Persistent Wild Reel! The counter on Persistent Wild Reels is reset to three for the next three games with the same betting option selected. Even cooler is all positions on Persistent Wild Reels are replaced with Wild symbols!

Trigger the Persistent Wild feature on ALL five reels at once for a Full House! Full House ends the Persistent Wild feature, resets the counter to zero and gifts you a 200x multiplier to your bet! Now that's a Christmas miracle!

Watch out for the Scatter symbols spread throughout the slot! Scatter symbols take the form of a treasure chest symbol, and can appear one at a time on any of the reels. Land

three, four or five Scatter symbols to trigger 15, 20 or 25 Free Spins, respectively! Any Dynamite symbols that land on the reels during the Free Spins rounds are counted on a meter displaying the Total Dynamite Collected.

When the Total Dynamite Collected meter reaches three, the Explode feature bursts into action, throwing Wild symbols all over the reels in random locations! The number of Wild symbols added corresponds to the number on the Total Dynamite Collected meter, after which the meter is reset back to zero.

The Free Spins feature can be triggered again during the Free Spins rounds, awarding up to an outstanding 25 Free Spins if between two and five Scatter symbols appear during any Free Spins rounds.

To make it really feel like Christmas, you don't need to trigger Free Spins just through the action - there's a brand-new BUY feature! BUY lets you purchase Free Spins, with a different amount of spins given according to the amount you pay. Each purchase immediately triggers Free Spins, so you can take to the reels like a Christmas wrecking ball!

Finally, it wouldn't be Christmas without any presents...and BF Games delivered a real treat on this one — when the Total Dynamite Collected meter reaches 15, a marvellous Grand Reward of 500x your bet is uncovered. Even The Grinch couldn't hate a gift like that!

Game phrases
