Journey deep into a magical, rainbow-lit forest ruled by enchanting fairies in this darker, less traditional Irish-themed slot.

Played on a 3x5 grid, Clover Fortune is a high-volatility 20-payline slot featuring jackpots, random wilds, free spins, and two scatter collection mechanics. Our take on the popular Irish theme sees beautifully crafted animations and sounds come alive during the bonus rounds, increasing in brightness and tempo for a more immersive and exciting experience.

Land clovers to work your way up eight random jackpot tiers with a top payout of 10,000x! In the base game, a 'lock level' can trigger randomly, sticking landed clovers in place and awarding a respin for the chance to land even more clovers towards the jackpot prize.

In free spins, landing clovers will either upgrade the prizes on offer or add more spins to extend the excitement. You can buy 10 free spins at 80x the bet or wait for three or more scatters to land.

Featuring all the features from our Game and Fortune mechanics such as the Fortune Wheel, Bonus Booster, Bonus Replay and Lucky Spin there's never a dull moment on our feature-packed debut slot!
