## LUCKY LUCKY SIDE BET RULES

- In the Lucky Lucky blackjack side bet the player is betting on whether the first two cards of their hand AND the dealer's face-up card combine to make one of the three-card hands below:
  - **Suited 7-7-7:** Three numbered 7 cards of the same suit
  - **Suited 6-7-8:** Three cards numbered 6,7,8, from the same suit
  - **Unsuited 7-7-7:** Three numbered 7 cards of mixed suit
  - **Unsuited 6-7-8:** Three cards numbered 6,7,8 from different suits

  - **Total of 20:** Any three cards collectively totalling 20
  - **Total of 19:** Any three cards collectively totalling 19
- The player must place the side bet before pushing the deal button in order to participate for the bet.
- If the player's first two cards plus the dealer's up-card combine to provide one of these five hands then the player wins the Lucky Lucky blackjack bet. If not, the player loses their side bet stake.
- How much the player can win depends on which three-card hand they get, with each one paying different odds.

## INSURANCE RULES

- If the dealer's first card is an Ace, you can take insurance against the dealer getting Blackjack
- An insurance bet costs half your regular bet amount
- Insurance bet wins or losses are independent from your regular bet
- If the dealer does not have Blackjack, the insurance bet is removed from the table. The insurance bet cost is deducted from your credit balance, the game continues
- If the dealer has Blackjack, the insurance bet pays out at odds of 2:1

## DOUBLE DOWN RULES

- You can double down on any of your first two cards
- A double down bet is equal to your regular bet amount
- When you double down, you are dealt one card and your hand stands
- You can double down after a split

## SPLIT RULES

- You can split two cards that have the same denomination or value
- When you split, a bet equal to your regular bet is placed on the second hand
- You are dealt a new card to each hand
- If you split a pair of Aces and draw a card with a value of 10, this is not Blackjack, it has a value of 21. This also applies to splitting cards with a value of 10 and then drawing an Ace
- You can split a once to make two hands
