

The big day is fast approaching, and Santa's Factory is buzzing with activity as preparations are underway at full speed to get all the presents made in time for Christmas.

Santa's Factory is a 7x7 cascading reel slot game. Expect lots of visual effects as symbols drop down on the reels to form winning combinations. Wins are achieved by getting five or more matching symbols when they come together in a cluster, whether vertically or horizontally. Winning symbols are removed, and new symbols drop down to fill the reels.

Festive features come in plentiful amounts. Ignite your playful spirit by charging the vertical features metre located on the left side of the reels to trigger up to four unique SANTA'S BOX FEATURES. Keep in mind that filling the Santa's Box features metre will also increase your TOTAL WIN MULTIPLIER. And once you fully charge your metre, Santa will award you even further with a 3x3 WILD SANTA BONUS that's full of surprises. Things will only get more joyful as Santa throws lots of RANDOM GIFTS your way.

Santa is going WILD with the extraordinary number of orders this year and his elves are working double shifts to turnaround all your gifts by Christmas Eve. So, get ready for a gift-filled Christmas celebration.
