WIDEST RANGE OF WORLD LEADING ROULETTE VARIANTS

World-class games – with the look and language localised for your market

Our Localised Roulette solutions enable operators to offer world-leading Localised Roulette solutions developed specifically for local players – going beyond simply meeting local regulator needs. These multiple award-winning solutions allow players to enter an online Live Roulette room where the whole player experience mirrors a visit to the best land-based casino in your country or region, where dealers speak to your players in your chosen native

language or regional dialect. Players simply click-and-play on their desktop, tablet or smartphone – in real-time, and alongside other players.

The native speaking Roulette solutions have proven results: player acquisition numbers increase dramatically, as does average spend per existing players. The strong rapport between dealers and players leads to extended playing time at the table, more repeat visits, and increased loyalty and lifetime player value.

KEY BENEFITS

- › Native speaking dealers
- › Attract new players
- › Drive incremental profit and loyalty.

RETURN TO PLAYER (OPTIMAL)
