Intro

Charlie Chance and the Curse of Cleopatra is a 6x6 cascading grid slot.

Symbols drop into the grid to create wins. 5 or more adjacently connected symbols in a cluster award a win. Only the highest win in the cluster is paid. Winning symbols are removed. New symbols cascade down to fill the gaps. Multiple clusters of the same symbol that are not connected are paid as separate clusters. 3 cascades in a row increase the Win Multiplier by 1, to a maximum of x3 in the base game and x10 in Free Spins. The Win Multiplier is reset on each round.

On random spins, 5-8 Flying Scarab Wilds will fly and land onto the grid. The Wild symbol substitutes for all symbols except Scatter.

On random non-winning spins, the Serpent's Trail feature may trigger. A Snake appears on the grid and creates a chain of symbols, which are then transformed into matching symbols or destroyed.

Cleo's Columns can be triggered on random spins. A pair of reels will land with an identical order of symbols on both reels. New symbols coming in on those reels via winning cascade will not be synchronised. It is also possible to land the Charlie Mega symbol during this feature – this can happen on the initial spin or the subsequent cascades on the two reels that were synchronised. When the Charlie Mega symbol lands, wins are paid out, it sticks in position for the cascade, then any low-paying symbols that are touching the Charlie Mega symbol are destroyed and new symbols will cascade in. Charlie Mega symbol then transforms into the Charlie Mega Wild, and any wins are paid out where applicable. Charlie Mega Wild symbol substitutes for all symbols except Scatter.

3 Scatters will award 8 Free Spins, any additional Scatters landing on the triggering spin will award an additional 4 Free Spins each. Current Win Multiplier is carried over into Free Spins.

In Free Spins the Win Multiplier is increased with every 3 cascades in a row. It is not reset between game rounds for the duration of the Free Spins feature and can grow up to a maximum of x10. Cleo's Columns feature is active on every Free Spin, with the possibility of landing the Charlie Mega symbol. Flying Scarab Wilds and Serpent's Trail feature can also be triggered during Free Spins in the same way as the base game. Each Scatter that lands during Free Spins awards 1 more Free Spin. Free Spins are capped at 150 spins.
