

ROYAL RICHES ROULETTE

Overview

Behind the locked vaults of Live88 lie riches of unfathomable worth.

Among massive base game multipliers, in an industry-first immersive Live Casino feature, collect keys to access a kingdom of relics and prizes in Live88's latest, Royal Riches Roulette.

Will luck strike in your favour with as many as 4 multipliers randomly landing among 37 standard numbers? Each multiplier can be worth up to 1,000x when landing on straight up wins!

Meanwhile, 8 coloured suits; 2 each in green, orange, blue and pink; will land during every game round, again on random numbers. A straight up bet win on one of these numbers will add the suit to the players collection. Your collection will remain active on your account, meaning an incomplete collection will not expire at the end of the session. Reopen the game to see your already-collected coloured suits!

Once all four suits have been collected, a key is rewarded and the countdown begins to the Relic Hunt Bonus Game.

Multipliers will be hidden beneath the game's 10 ornate relics. Choose from the chalice, sword, scroll, scepter and more to unearth massive multiplier wins of up to 500x. Collections average bet amount is used for the relic selection which will be multiplied with the revealed multiplier later.

At the same time the players without a key collection can participate in the Lucky Coin game by placing a bet and making a guess on under which relic the coin is hidden. Lucky Coin is revealed to the players after betting time ends. Players guessing the correct location of the coin will have their bet multiplied by up to 50x!

Then the Relic Hunt players' fun begins. The game starts revealing the multipliers for each relic for the collection owners where the highest multipliers await!

Will you be crowned king of casino with your collection of regal rewards in Live88's Royal Riches Multiplier Roulette
