GAME FEATURES

Wilds

In the main game, Wild symbols grace reels 2 to 5, replacing all symbols except Scatters and Cursed Treasures.

Cursed Treasure

The Cursed Treasure feature activates in the main game and Free Spins, gathering symbols into a Chalice beside the reels. Starting at 5, each collected Cursed Treasure symbol increases the count.

In the main game, it triggers randomly or when 20+ Cursed Treasure symbols are collected, placing Cash Prize symbols on reels, matching the collected Cursed Treasure count. For fewer than 20 symbols, Cash Prizes range from 0.5x to 5x the bet; 20 or more symbols increase prizes to 0.5x to 20x the bet.

Cash Prizes stack if placed in the same spot and they can't overlap with Scatter symbols. After payout, the count resets to 5. If Free Spins activate with symbols in the Chalice, they're saved for later. Changing bet values stores collected symbols separately and restores them when the original bet returns.

Free Spins

In the main game, landing 3 or more Dynamite scatters triggers Free Spins. During Free Spins, each reel position spins independently, featuring only Cash Prize, Mystery Cash Prize, and Cursed Treasure symbols. Starting with 3 spins, every appearance of a Cash Prize, Mystery Cash Prize, or Cursed Treasure symbol resets the spin count. Cash Prizes range from 0.5x to 10x the bet; Mystery Cash Prizes range from 50x to 5000x the bet, staying on the reels until Free Spins end.

Cursed Treasure symbols increase a new Chalice count starting at 5. After spins run out, the collected Cursed Treasure triggers Cash Prize symbols (0.5x to 20x the bet) and/or Mystery Cash Prizes based on the collected symbols. When the Cash Prize symbols drop, Mystery Cash Prize symbols reveal their values, leading to a total win summing all values. Free Spins maintain the triggering bet, ending at 0 spins or when the grid fills with prizes. Total Free Spins wins combine with initial round wins before returning to the main game.
