DROPS

- At the beginning of a game, 3 symbols are dropped onto 6 columns.
- **Explosion:** when a winning combination is achieved, all symbols in non-winning positions are removed except SCATTER symbols.
- **Morphs:** If after Explosions there is more than one symbol type remaining (excluding SCATTER and PROFESSOR) then they are all transformed into the highest paying symbol of those present.
- **Booster:** If after Explosions and Morphs any previously winning symbol is no longer in a winning position, extra matching symbols will be added to one or more surrounding columns to make it a winning combination.
- After **Explosions, Morphs** and **Boosters**, a new symbol will be dropped onto the top of each column that has less than 5 symbols present.

BONUS RESPINS

- Bonus Respins are triggered when 5 or more SCATTER symbols appear.
- When a new SCATTER symbol lands, respin count is reset to 3.
- Upon completion of respins, each SCATTER symbol awards a prize or bonus prize.
