

Funk Master

Introducing: Funk Master™

Feel the Funk Master™ beat and you're likely to catch disco fever! Symptoms include feet tapping, finger snapping, and a general groovy feeling! The slot looks and feels like a '70s dance party. All symbols in this 8-row, 8-reel slot are shiny disco balls that fall into position through the Avalanche™ mechanic.

The true king of the dancefloor is the Dancing Wild symbol. When this symbol becomes part of a winning cluster, it does not disappear from the reels. Instead, it keeps on groovin'!

And just when you thought this dance party couldn't get any more intense, Multipliers show up! Multipliers can land anywhere, in the main game and in Free Spins, sending winnings sky-high. Time to drop a funk bomb. Funk Master™ is the grooviest slot this side of the '70s. Join the party!

HIGHLIGHTS

- Join the party with '70s disco theme

FEATURES IN THE GAME

DANCING WILD SYMBOL

These can appear anywhere on the reels in the main game and in Free Spins. Whenever they form part of a winning cluster, they don't disappear, but rather boogie on over into an empty position that is horizontally, vertically, or diagonally adjacent. After the Dancing Wild symbol moves, the Avalanche™ feature is activated. Dancing Wild symbols substitute for all symbols except for Multiplier symbols and pay the highest possible winning combination in a cluster according to the Paytable. Dancing Wild symbols can be a part of more than one winning cluster!

DANCING WILD HOTSPOT

At the start of each spin in the main game, a Dancing Wild Hotspot is randomly placed on the reels highlighting a 2x2 square area. When symbols within this square become part of a winning cluster, their positions become unlocked. If all positions are unlocked during one game round, you get awarded 1 Dancing Wild symbol. All Dancing Wilds Hotspot positions that are not unlocked within one game round become locked again.

In Free Spins, the Dancing Wilds Hotspot is a 3x3 square area. Unlocking all Dancing Wilds Hotspot positions in Free Spins awards 2 Dancing Wild symbols AND expands the reels 1 row up. The maximum possible number of rows is 12.

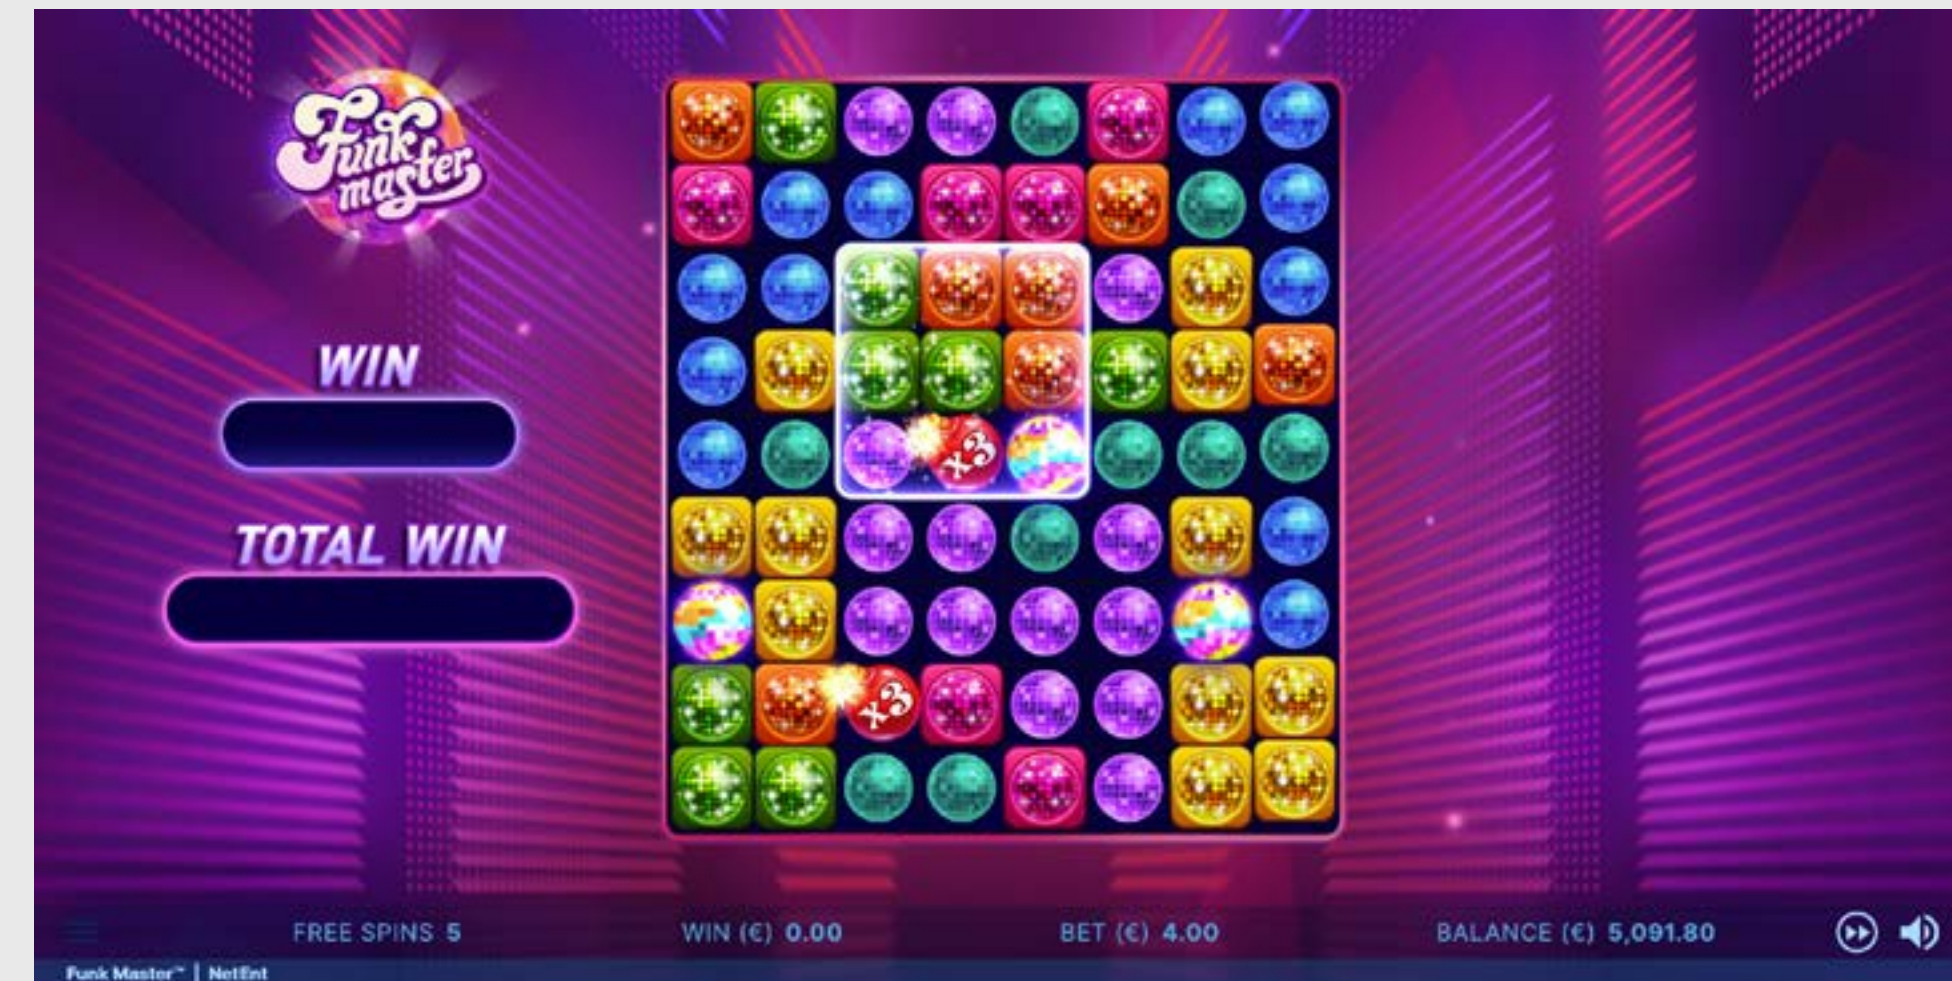

In both the main game and Free Spins, the awarded Dancing Wild symbols randomly appear on one of the empty Dancing Wilds Hotspot positions.

FEATURES IN THE GAME

MULTIPLIER SYMBOLS

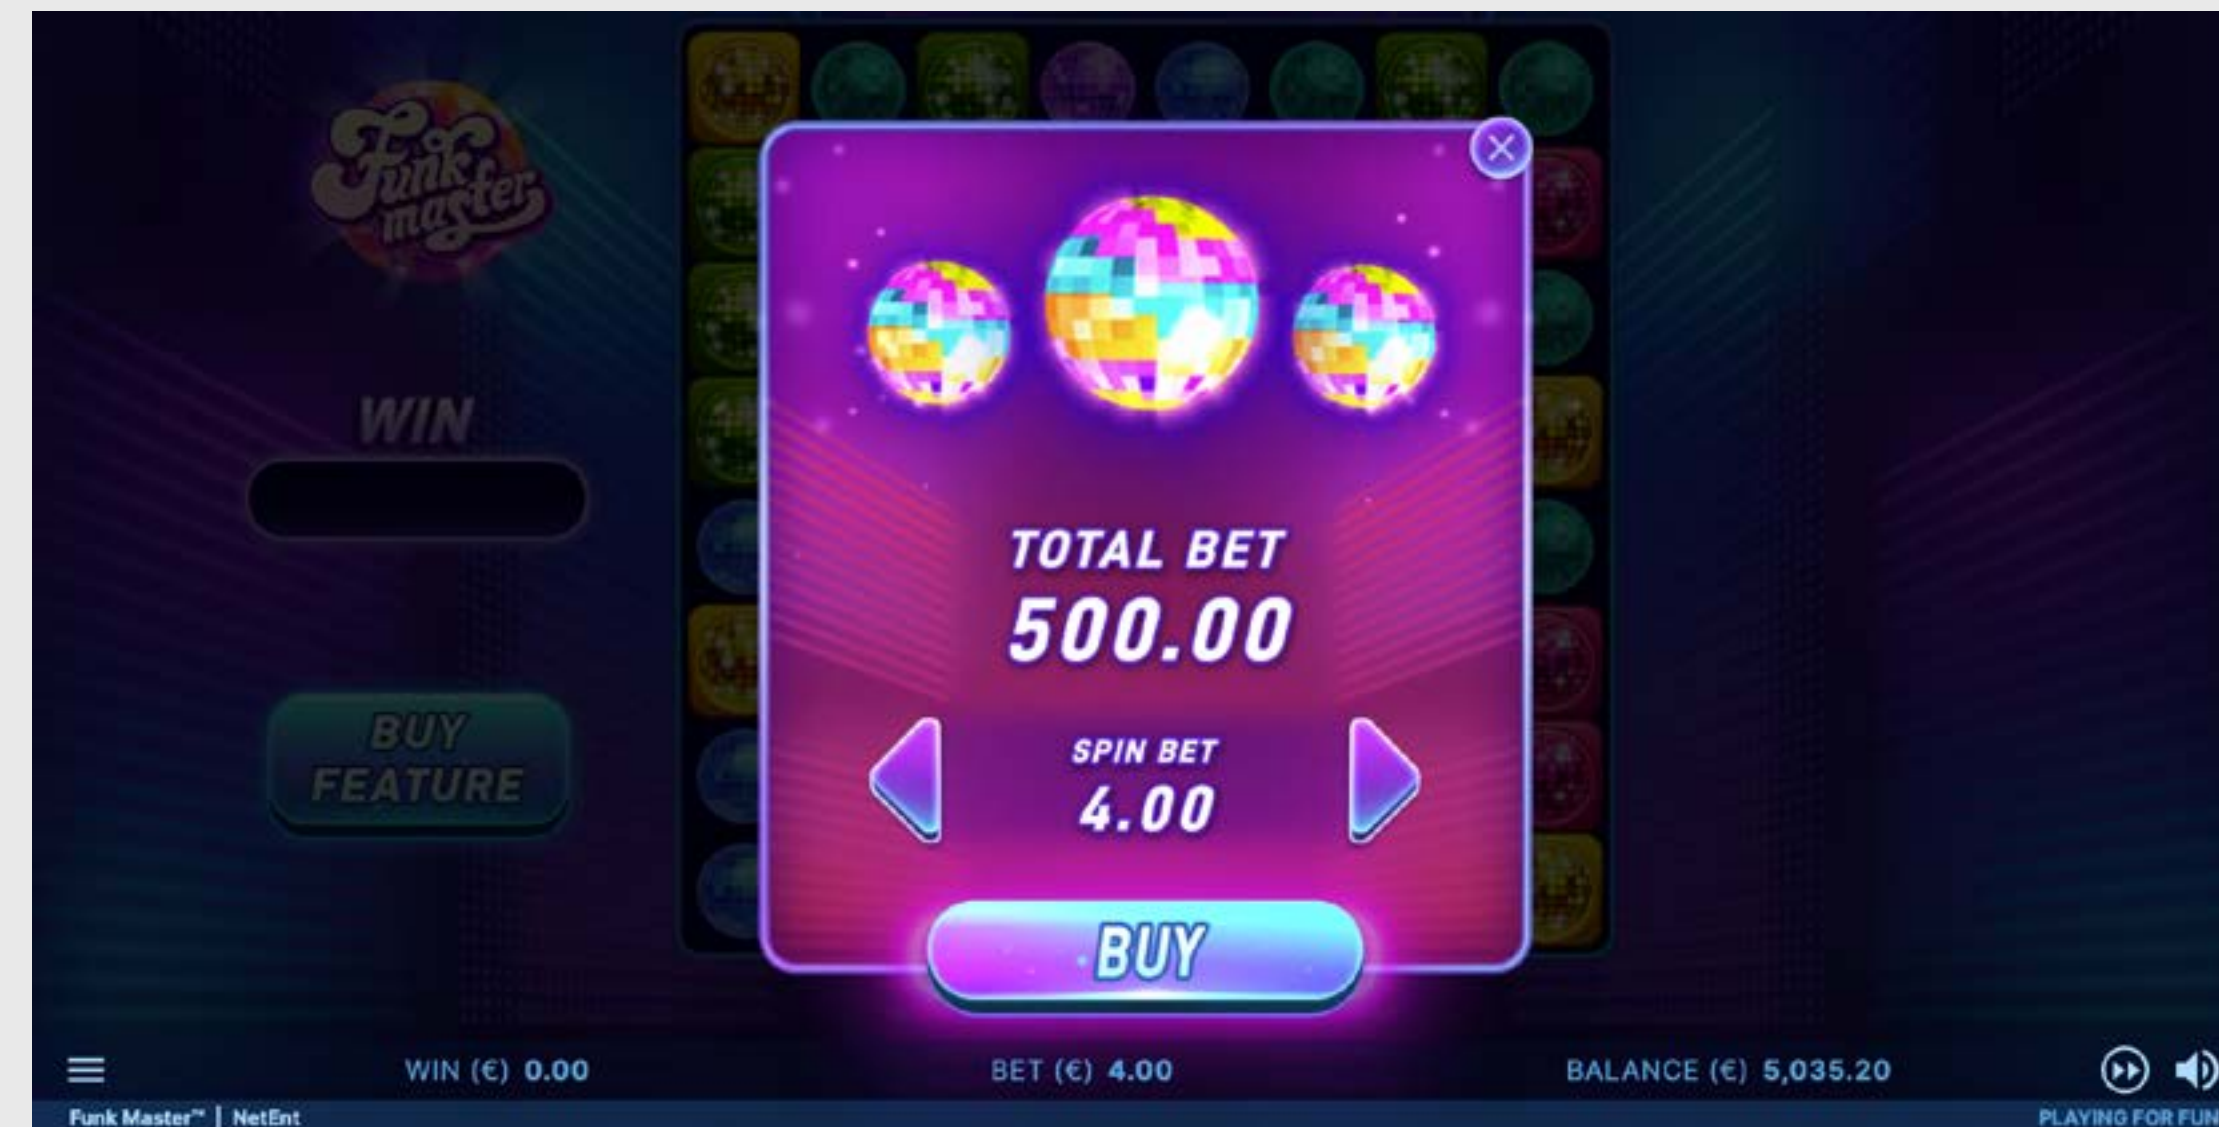

Multipliers are the bomb... literally! Multipliers are shown as lit fuse-bombs and can appear anywhere on the reels in the main game and Free Spins. Multiplier symbols are not considered a part of the winning cluster; instead, they multiply the total win from the spin by their value: x2, x3, x5, or x10. If two or more Multiplier symbols appear on the reels during the same spin in the main game or Free Spins, the total win from that spin is multiplied by the sum of their values.

FREE SPINS

Dance your way into Free Spins! Collect 3 or more Dancing Wild symbols to activate 6 Free Spins. The Dancing Wilds that activated Free Spins stay in their positions on the reels and remain until the end of Free Spins. The initial size of the play area in Free Spins is 9 rows and 8 reels but can grow to 12 rows and 8 reels. Free Spins end when the Free Spins counter reaches 0.

FEATURES IN THE GAME

BUY FEATURE

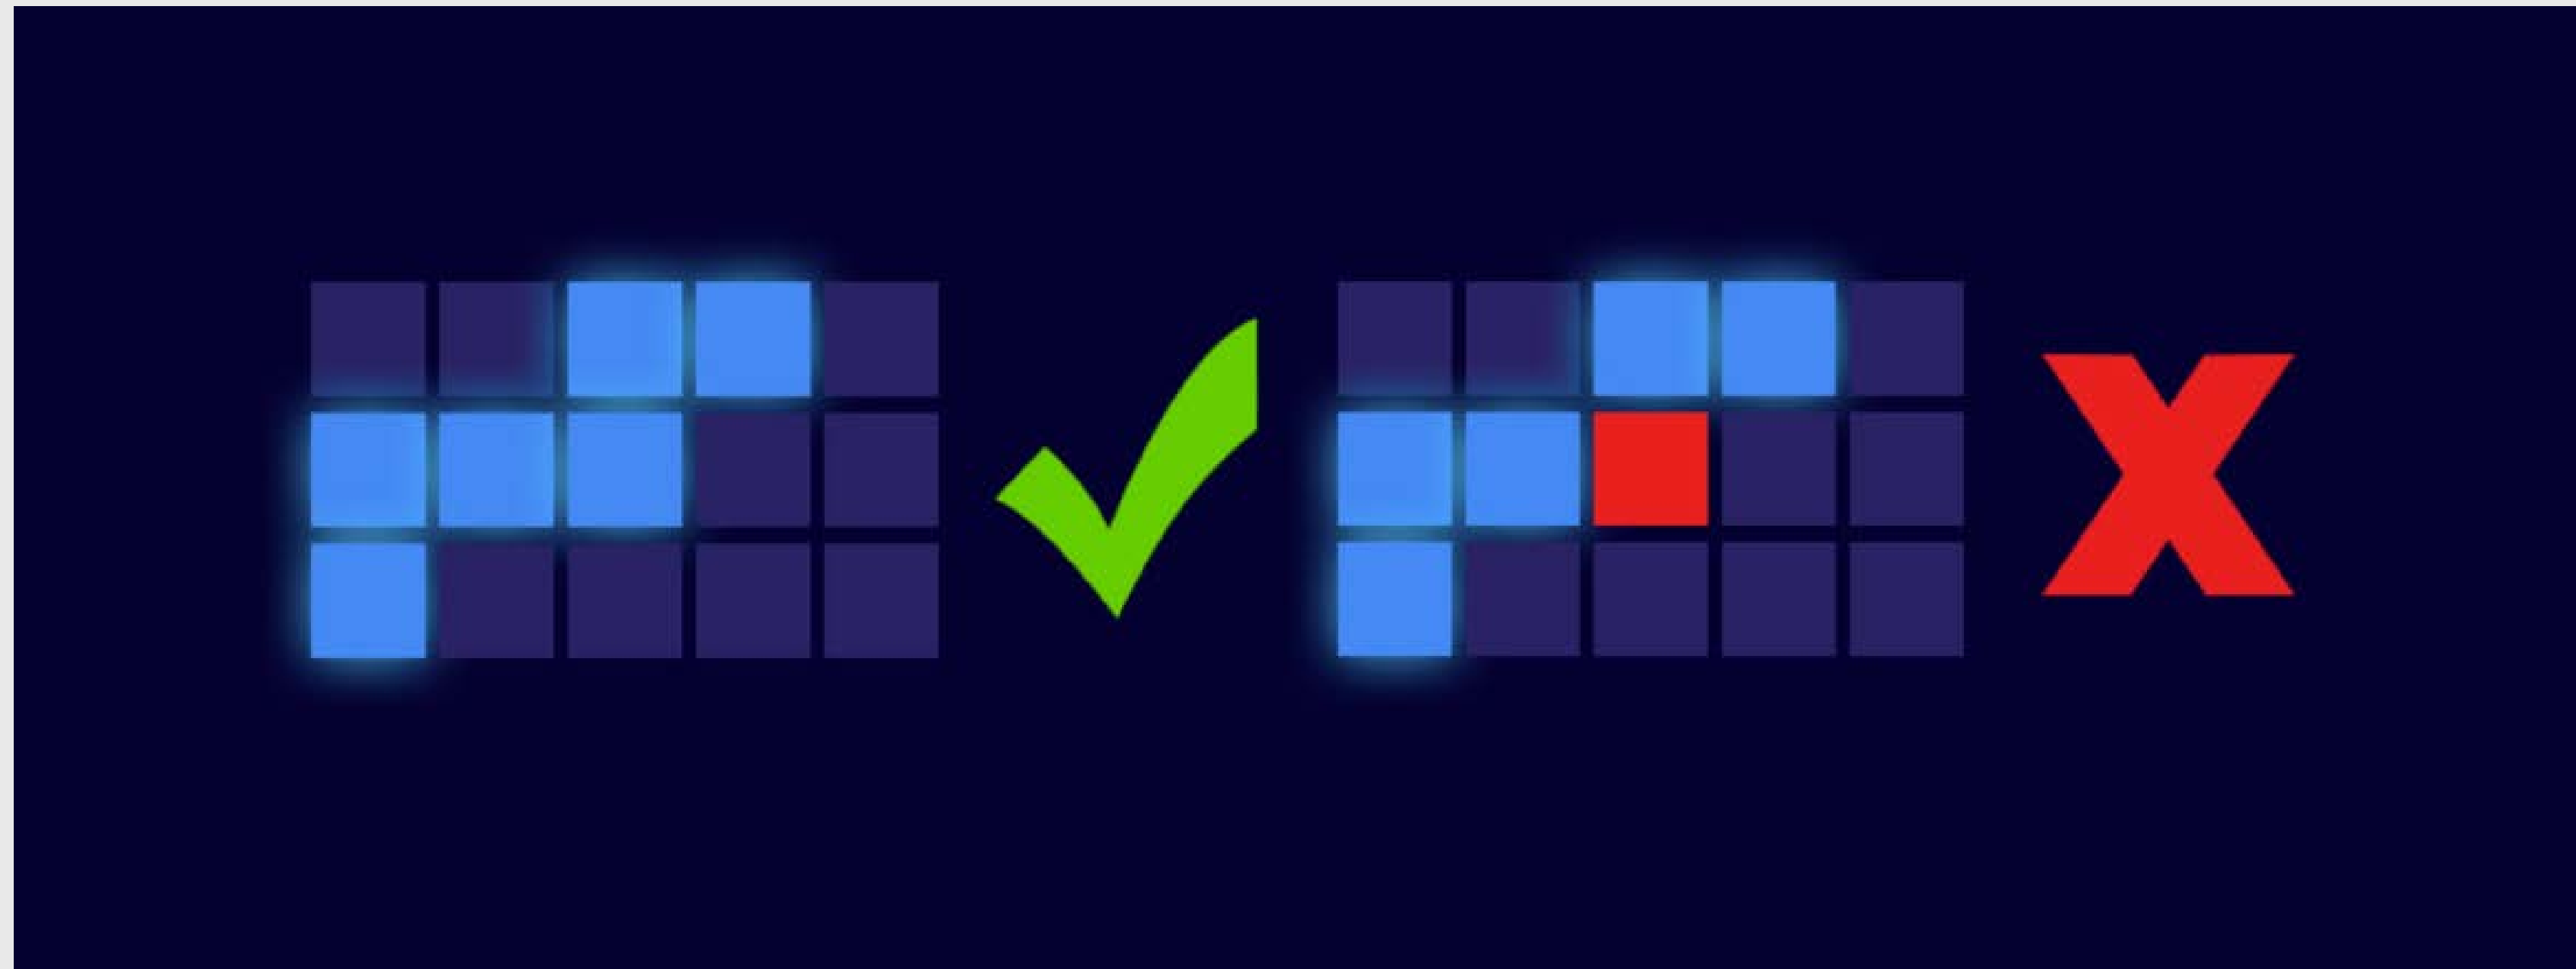

Don't like waiting? You can activate Free Spins at 125x bet. When Free Spins are activated with the Buy Feature, one free main game spin that is guaranteed to activate 6 Free Spins is played.

SYMBOLS

Symbols are multi-colored shiny disco balls! Funk Master™ surrounds you with colorful animated disco lights to create a fun, retro gaming experience. The Multiplier is a fuse-bomb that shows the value of the Multiplier payload it delivers. The Dancing Wild is the most spectacular disco ball of all – a pink, blue, and gold explosion of groovy color.

CLUSTER PAYS

A symbol is part of a cluster if it is horizontally or vertically adjacent to the same symbol. A cluster win is equal to the value shown in the Paytable multiplied by any applicable multipliers. Only the highest win per cluster is paid. Simultaneous wins from multiple clusters are added.
