What multiplier present will Saint Nick grant you in Santa's Great Gifts™

Santa's Great Gifts™ is played across 6x5 reels with at least eight matching symbols needed to be landed anywhere on the game board to trigger a win. This creates a tumble feature of new symbols including candy canes, Christmas cookies, snow globes and other festive characters, which can grant further wins. # TUMBLE FEATURE

The TUMBLE FEATURE means that after every spin, winning combinations are paid and all winning symbols disappear. The remaining symbols fall to the bottom of the screen and the empty positions are replaced with symbols coming from above.

Tumbling will continue until no more winning combinations appear as a result of a tumble. There's no limit to the number of possible tumbles.

All wins are added to the player's balance after all of the tumbles resulted from a base spin have been played.

These are the multiplier symbols. They are present on all reels and can hit randomly during spins and tumbles in both base game and FREE SPINS.

Whenever a MULTIPLIER symbol hits, it takes a random multiplier value from 2x to 100x.

When the tumbling sequence ends, the values of all MULTIPLIER symbols on the screen are added together and the total win of the sequence is multiplied by the final value.
