Wild Frames 2

WHAT'S THE STORY?

Head on back to the Yukon River and grab yourself a piece of the Gold Rush that remains!

Welcome back to the Klondike Gold Rush, where our favourite miner and his dutiful donkey are back for their latest and greatest adventure. In this sequel to our popular classic Wild Falls, make your way down the cold Canadian river towards gold.

Can you help the miner and his donkey grab the gold as it floats down the river? Find the River of Gold and you might just find yourself a golden fortune!

FEATURES

Point our trusted miner and his dutiful donkey toward a golden fortune by collecting Chests and Gold Chests while riding a river of features to riches!

Play with the same popular game mechanics that made Wild Falls a fan favourite and navigate through the sequel, starting with the randomly triggered Gold Rush feature. In the Gold Rush, all Chests (Wild/Scatter symbol) on the reel turn into Gold Chests (Win Multiplier/Scatter symbol) for that spin and subsequent re-spins.

Chests and Gold Chests stream down the falls. Catch one or two and watch a fog lift from the grid, extending the reel height by a row or two, respectively. Power your way downstream in the Rapid Re-spins feature by collecting additional chests, leading to the innovative Free Spins feature.

Collect three Chests and take a trip down the River of Gold. Chests serve as Sticky Wilds and fall one space down with every spin.

Collect three Gold Chests and take a trip down the Super River of Gold. Gold Chests carry Win Multipliers between 2x-5x and also serve as Sticky Wilds; enjoy an increasing Win Multiplier every time a Gold Chest falls, up to 9x!

The number of Free Spins available in either river feature is UNLIMITED -- keep spinning away until no chests remain on the reel.

In Wild Falls 2, get ready for your most adventurous ride yet. Show the miner and donkey the golden way and claim your piece of the Klondike Gold Rush!

MEET THE CHARACTERS

Where would the miner be without his donkey?

THE MINER

After striking it big on the Yukon River in the past, The Miner has returned for more. He's heard about how the river is still ripe for gold and with the Klondike Gold Rush just beginning, he wouldn't dare miss out.

THE DONKEY

Wherever The Miner goes, The Donkey comes with. And make no mistake, our favourite donkey isn't just here for transportation. With an instinctive eye for the rough Yukon River environment, he can lend a huge helping hand in finding the gold that is promised. Point him in the right direction and you might find that gold, too.

IN-GAME ARTWORK

Bold, colourful and fun the artwork in Wild Falls 2 leaps of the reels and thanks to the cool 3D effect of the river, it really feels like the chests of gold are dropping down the waterfall. With the trusty lamplight, pike axe and shovel, you can't take the mine out of the miner – even when the gold is above ground!
