FEATURES

WILD

This is the Wild symbol.
It replaces all symbols apart from the Scatter and Bonus symbols.

It can appear on reels 2, 4 and 6.

SCATTER

This is the Scatter symbol and it can appear on reels 1, 3 and 5.

The Free Games session with 15 spins is triggered when three Scatter symbols appear on the reels.

If three Scatter symbols appear during the Free Games, an additional 5 spins will be awarded.

BONUS

This is the Scatter symbol and it can appear on reels 1, 3 and 5 during the base game.

This bonus will consist of two phases:
First, the weapon with which the bonus will be entered will be randomly selected: each weapon awards different prizes.
In the second phase, if the axe is selected, a shot at the target will be launched, which will award the prize corresponding to the ring that is hit. For shooting with the bow, three arrows will be launched, and the sum of the rings that each arrow hits will be used.

FREE SPINS DIRECT PURCHASE

You can buy direct entry to the Free Spins round. You will enter it with the triggering bet and you will play a complete round of 15 spins with the same conditions as if you had entered through the base game.

This feature can be deactivated at the customer's request or for certain legislations that do not allow it.
