A SUPERCHARGED LIGHTNING ROULETTE WITH XXXTREME MULTIPLIERS

XXXtreme Lightning Roulette is a ground-breaking XXXtreme version of the award-winning Lightning Roulette that combines Live Casino with a high-payout RNG (Random Number Generator) element to offer an even more electrifying and entertaining gaming experience.

This game takes the suspense to the maximum level as Chain Lightning brings more Chain Lightning Numbers and additional Double Strikes for more possibilities to win even higher multiplier payouts!

Once bets have closed, the first Lightning Numbers with Lightning Multipliers from 50x up to 500x

are generated and struck by lightning, just as in Lightning Roulette. Then the Chain Lightning effect takes hold, with additional bet spots hit by lightning – potentially making up to ten in total. But that's not all; Double Strikes can increase multipliers up to 2,000x! Now, that's what we like to call XXXtreme!

Presented in a rich and beautifully dramatic environment with an electrifying user interface and engaging game hosts – Chain Lightning Numbers and Double Strikes add new levels of drama in this XXXtreme version of Lightning Roulette!

HOW TO PLAY

The objective of the XXXtreme Lightning Roulette is to predict the number on which the ball will land by placing one or more bets that cover that particular number. The wheel includes the numbers 1-36 plus a single zero.

You can place many different bets on the Roulette table, covering a single number or a certain range of numbers. A Straight Up bet on a Lightning Number or Chain Lightning Number is required to win a multiplied payout. Each type of bet has its own payout rate.

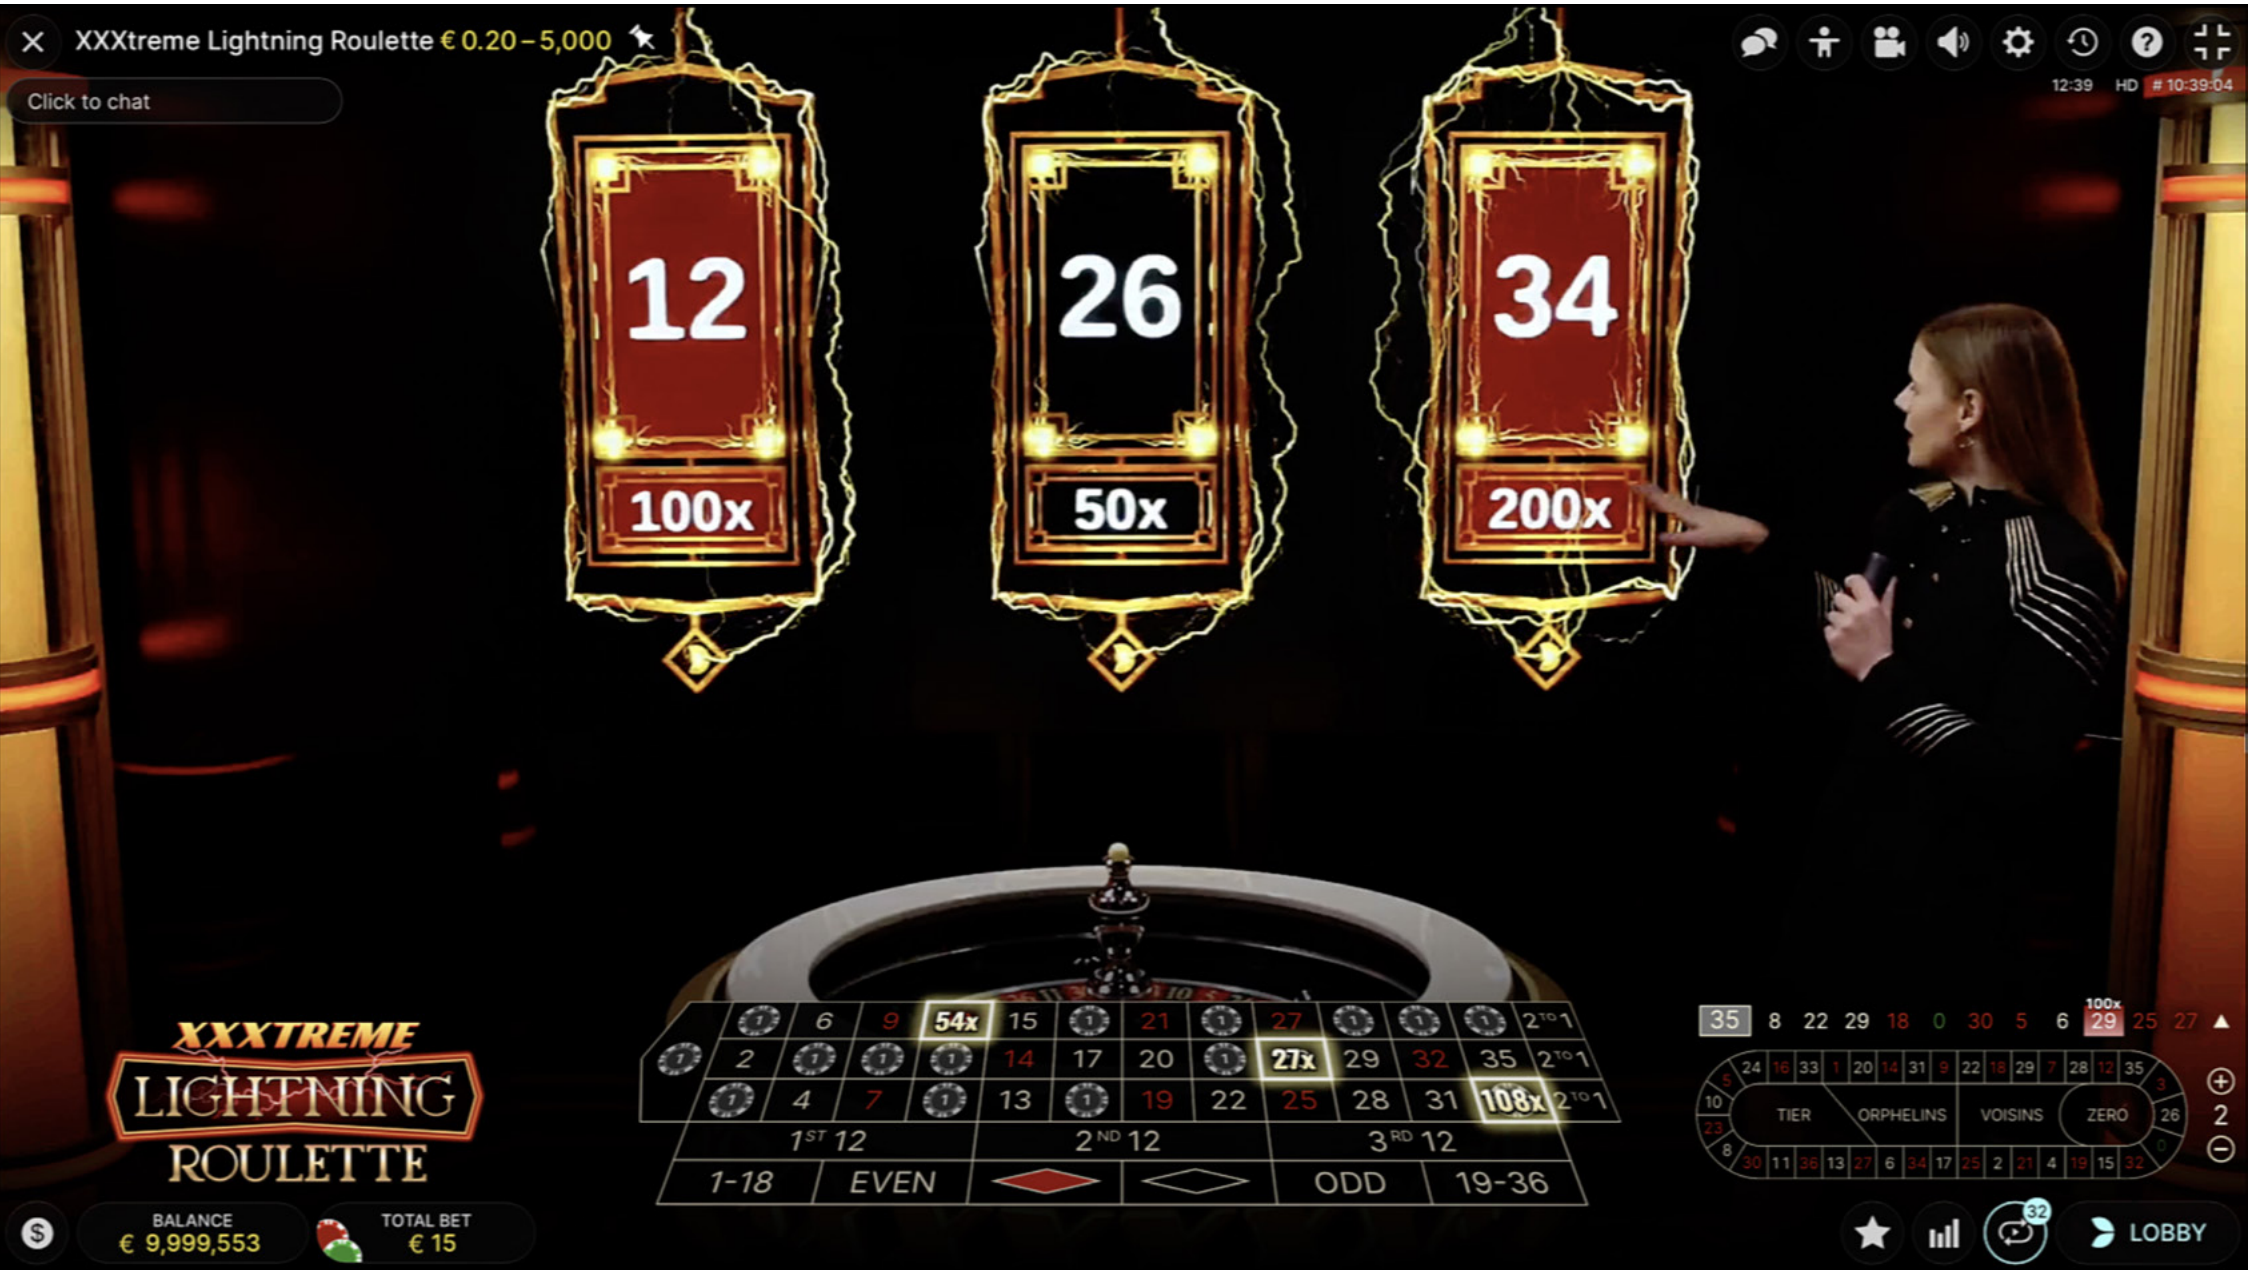

LIGHTNING ROUND

After betting time has expired, the ball is spun automatically within the Auto Roulette wheel, and the game host will pull a lever to initiate the generating of Lightning Numbers.

One to five Lightning Numbers with random Lightning Multipliers (multipliers of 50x, 100x, 150x, 200x, 250x, 300x, 350x, 400x and 500x) are generated and highlighted in yellow in the user interface, as well as in the game show environment.

CHAIN LIGHTNING

Chain Lightning can strike in each game round to further build the suspense. The Chain Lightning can generate up to nine additional Chain Lightning Number bet spots – allowing the Lightning Numbers and Chain Lightning Numbers to make up (but never exceed) to an astonishing ten bet spots in total per game round! The Chain Lightning Numbers and Chain Lightning Multipliers will be highlighted as red in the user interface.

DOUBLE STRIKES

And if that’s not enough, a second round of lightning called Double Strikes can happen. Double Strikes can increase multipliers up to 600x - 2,000x!

The ball will eventually come to rest in one of the numbered pockets, and the winning number will be displayed on the screen. You win if you have placed a bet that covers the winning number.

If the winning number is among the randomly selected Lightning Numbers or Chain Lightning Numbers and is covered by the players’ bet on a Straight Up bet, the bet is multiplied with the won multiplier.

Autoplay is available if you wish to automatically play the same bets for a selected number of game rounds.
