Gamble Feature

Gamble your winnings to multiply your total win by up to 5x Win multiplier starts at 1x You may choose to collect your winnings at any time, or attempt to gamble to advance to the next multiplier Player can continue to gamble as long as they haven't reached the 0x multiplier or the maximum multiplier The maximum win from the Gamble Feature is 400,000 x Base Bet If any multipliers would result in a win higher than 400,000 x Base Bet, they are disabled Reaching the highest enabled multiplier automatically awards the win and completes the feature Any wins from the spin/reactions that triggered the Bonus Respins are included in the gamble

Mike Goes Bananaz

At the end of any game where no win is achieved, there is a chance that the MIKE GOES BANANAZ is triggered. 1-3 symbols in the reel display will be changed to MONKEY MIKE symbols. Each MONKEY MIKE symbol will have a random multiplier from 1-5x. The MONKEY MIKE multiplier is applied to any win combination the MONKEY MIKE symbol occurs in. If more than one MONKEY MIKE appears in a win combination, the multipliers are multiplied. MONKEY MIKE symbols are added only to the vertical reels 2, 3, 4 or 5. MONKEY MIKE symbols will not be added to positions that contain a BANANA BUNCH.

Bonus Respins

Bonus Respins are triggered when 4 or more BANANA BUNCH symbols appear. 3 respins are awarded. BANANA, BANANA BUNCH and MONKEY MIKE symbols are all PRIZE symbols. Triggering BANANA BUNCH symbols are turned into BANANA symbols with random multipliers from 1-1000x. All other symbols outside of the triggering BANANA BUNCH symbols are removed. All PRIZE symbols are held, and all remaining positions spin. When any new PRIZE symbol appears, they are held, and respins are reset to 3. BANANA symbols will have a random multiplier from 1-1000x. Once all positions have completed their spin, BANANA BUNCH and MONKEY MIKE symbols are processed. BANANA BUNCH symbols will have a multiplier value equaling the total of all adjacent PRIZE symbols at the time of processing (or 1x total bet if no adjacent PRIZE

symbols exist). MONKEY MIKE symbols will have a multiplier value equaling the total of all PRIZE symbols currently on the reel set at the time of processing (or 1x total bet if no PRIZE symbols exist). BANANA BUNCH symbols will all be processed before MONKEY MIKE symbols. BANANA BUNCH and MONKEY MIKE symbols are processed in order of top-to-bottom then left-to-right. Once all BANANA BUNCH and MONKEY MIKE symbols are processed, any remaining respin may commence. When either no respins remain, or all reel positions contain PRIZE symbols, a prize is awarded equaling the total of all PRIZE symbol multiplier values multiplied by the total bet. After completion, if all reel positions contained PRIZE symbols then the reels are cleared and Bonus Respins are retriggered. Bonus Respins are played at the bet of the triggering spin. Symbol pays shown

in the paytable are not awarded during Bonus
Respins.
